Smoke Gets In Their Eyes

City's 'Burning Question'

SMOKE'S NO JOKE. Residents of western St. George St. continue to complain about smoke and fumes from burning autos at the nearby Berman Iron & Steel firm, but city authorities report the correction of the problem is far from simple.

By ROBERT POPP

The smoke that billows upward regularly from an East End scrap metal yard forms a huge figurative question mark.

It poses a three - pronged dilemma involving the scrap yard operator, the nearby residents and the city government.

All of them would like to work out a solution that would allow the scrap yard dealer to remove the combustible material from old auto bodies without stirring up smoke that irritates the householders and causes them to complain to City Hall.

The scrap yard is the Berman Iron & Steel Co. at 505 Maple St., operated by Barry Berman. The householders are the residents of nearby Railroad St., St. George St. and Ohio Ave. The concerned public officials are Safety - Service Director Robert E. Vodrey and Fire Chief Alfred VanDyne.

—:—

THE HOUSEHOLDERS and the city officials agree that construction of an incinerator with a high stack might send the fly ash and the smoke higher into the atmosphere where it would dissipate without maddening the neighbors. In the next breath they concede that such a project would not be economically feasible for the scrap yard operator. In fact, it probably would force him out of business.

The only other workable alternative the householders can suggest would call for Berman to move his business to some remote spot outside the city where smoke would not be a problem. That action, in effect, would deny him the right to continue to do business in a spot he has occupied for many years. It also would pose problems of transportation, particularly the shipment of scrap once it has been processed.

So the net result is that nobody can propose a solution that is economically feasible or practical from an everyday business standpoint.

—:—

VANDYNE POINTS out that in his service as fire chief the city's three scrap yard operators agreed to burn refuse only on three days each week — Tuesday, Wednesday and Thursday. That's a change from the former operation, in which the scrap yard operators were permitted to burn trash any day in the week, if they felt like it.

When the question of smoke from Berman's yard came up again Tuesday, VanDyne talked with the operator Wednesday and Thursday. He said Berman agreed to set fires only in the morning hours, if the change would help appease his neighbors. Of the three junk yards in the city, Berman's is the only one in immediate proximity to a residential area, which means that his operations stir up the most complaints.

Vodrey also pointed out that trash burning by junk yard operators was unrestricted before VanDyne worked out the agreement that calls for fires on only three days. VanDyne explained the Tuesday - Wednesday - Thursday rule prevents smoke on Mondays, the traditional washday, and also on the weekends.

"If anyone can come up with a good solution — one that would satisfy the residents, the junk yard operator and the city government — I would like to sit down and talk with him," the chief said.

—:—

VANDYNE pointed out the city has made a concerted drive recently to remove so - called "junker" cars from the streets.

"They have to be disposed of, once they're towed away," he said. This situation is a problem for everybody, the scrap yard operator, the residents nearby and the city government."

Vodrey pointed out complaints on the smoke have been intermittent for several years. He

New York Police Hunt For Sniper

Automatic Carbine Used By Gunman Kill Three Persons

NEW YORK (AP) — Police today pressed a massive manhunt for a Bronx gunman who killed three persons and wounded a fourth with a hail of fire from an automatic carbine.

Bronx Asst. Dist. Atty. Burton Roberts said a 15-state alarm was issued for one Bobby Rogers, alias Bobby Pugh, 31, who was superintendent of the building in front of which the shootings occurred Thursday evening.

The rapid-fire shooting brought more than 200 policemen armed with rifles, revolvers, shotguns and tear-gas guns and wearing bullet-proof vests to the dingy orange tenement into which the gunman fled.

As thousands of spectators swarmed to watch, police searched the five-story building but failed to find the man. They concluded he had escaped through a basement connecting three buildings on the block.

The dead were identified as Manuel Angel Figueroa, 19, Efrain Castro, 21, and Jose Rivera, 18. Roberts said preliminary evidence indicated the man being sought knew all three.

Police said Figueroa was dead on arrival at Lincoln Hospital and that Castro and Rivera died at the hospital.

Roberts described Rogers as a light-skinned Negro, about 5 feet 11, 160 pounds. He said the man had been honorably discharged from the Army in 1962 and took the superintendent's job on Dec. 1, 1967.

The shooting came just eight days after police killed a Central Park sniper, Angel Angelof, who had shot to death a young woman and wounded three other persons.

Considerable Damage Caused

Midland Area Hardest Hit By Thursday Night Storm

High winds and heavy rain accompanied by lightning buffeted the tri-state district Thursday night, causing considerable damage at Midland, where there was also brief flooding.

No major damage was reported here and in other area communities.

At Rogers, three - fourths of an inch of rain fell in 45 minutes, starting at 9:10, and there was hail and high winds, but no damage. The total rainfall yesterday through this morning there was .83 inches.

—:—

AT MIDLAND, there were some fires, many fallen trees and limbs and small landslides.

Fire Chief William Monac of Midland reported volunteer firemen answered 12 calls in a three-hour period from 8:45. Midland Heights firemen responded to three calls.

The violent rainstorm, accompanied by frequent lightning and high winds, hit the borough about 8:30.

Lightning hit an antenna wire, causing slight fire damage in the upstairs of the Stanley Muslovski home at 436 Midland Ave.

Power lines were downed at 9th St. and Ohio Ave. and on Midland Ave. between 3rd and 4th Sts. and at the west end of town.

The downpour loosened soil and rock and caused washouts and hillslides in the Springlane area and on the Midland Heights Hill.

Borough street crews were called out with the highlift truck and power saw to remove soil and rock and to cut fallen trees and limbs.

Firemen directed traffic around the washout areas until the streets were cleared.

—:—

THE HEAVY rains flooded residences at 4th St., 6th St. and 9th St. areas. In some cases, firemen helped move furniture and valuables from reach of the waters, which quickly receded.

Chief Monac said 23 members of the department were on hand during the crisis. No injuries were reported.

At Midland Heights, firemen guarded a "hot" power line at Midcrest until Duquesne Light Co. crewmen arrived to make repairs. Lightning reportedly struck the 30 and 57 units at the Midcrest housing district.

Monac said electrical service was disrupted only about five minutes.

Weatherman Sticks To 'Sunny, Warm'

Ignoring the "curve ball" which he tossed Thursday, the weatherman says it will be mostly sunny and warm today and Saturday.

Area communities which became drenched last evening during the thunderstorm only could shake their heads and mutter that "the old boy missed one" as they recalled the forecast of clear and mild.

Terrorist Shoots GI In Capital

Guards Are Posted At U.S. Embassy, Key Installations

SAIGON (AP) A terrorist shot and killed a U.S. soldier in downtown Saigon today amid reports that Viet Cong suicide commandos are expected to raid the capital at any time.

The assassination was the first against an American reported in Saigon since the Viet Cong's second offensive against the capital in May.

Extra guards were posted at the U.S. Embassy and other key installations, and police were put on 100 per cent alert. The raids, if they come, likely would open the third Viet Cong offensive of the year against Saigon, an attack that has been expected for weeks.

Shot Three Times

The terrorist's victim was shot three times less than a mile from the presidential palace and taken to an Army hospital. His assailant escaped.

U.S. sources said they had no confirmation of the South Vietnamese intelligence reports warning of commando raids. But American troops "are in a complete state of readiness to meet any enemy attacks" and have been for months, a spokesman said.

But Vietnamese police sources said guards were increased at the U.S. Embassy, where a Viet Cong suicide squad struck Jan. 30 at the beginning of the Tet offensive and held out for several hours in the embassy grounds. More government troops also were sent to bridges leading into the city and various checkpoints on Saigon's outskirts.

Wood, Curry, Fry Top Test On Fire Jobs

Firemen Harold A. Fry, James P. Curry and Ralph W. Wood are scheduled for promotion to lieutenants' rank to take command of the fire department's three outlying stations—in East End, Pleasant Heights and North Side.

They topped a list of five who received passing scores when the Civil Service Commission met Thursday night to grade papers in a promotional exam it conducted July 8. Fry placed first, Curry second and Wood third. Fry resides at 540 Williams Ave., Curry at 747 Mayberry Ln. and Wood at 1248 Erie St.

The other passing grades were received by Robert H. Lynn of 555 Williams Ave., who placed fourth, and Ralph E. Chapman of 1049 Rubicon St., fifth. Nine firemen applied for the promotional test, but only seven appeared to compete.

In a promotional exam, state law gives the appointing authority no discretion in making a selection. The law requires the post to go to the man or men with the top grades.

The names of the last two men will remain on the eligibility list for use in case of another vacancy in the lieutenant's ranks.

Council enacted the legislation May 7 to create the new posts. The action was taken at the suggestion of Chief Alfred VanDyne, who said one man should be designated to take charge in the two-man crews at each outlying station.

The jobs will pay $493 a month, $13 more than a rank-and-file fireman draws. The Civil Service Commission said it will certify the names of the top men soon to Safety-Service Director Robert E. Vodrey.

Defense Secretary OKs Super-Sub Development

WASHINGTON (AP) — Secretary of Defense Clark M. Clifford has set the stage for a possible expansion of the U.S. nuclear attack submarine force with his approval of a new superfast model.

Clifford told a news conference Thursday he has ordered the top scientific and technical brains to work on the vessel, understood to carry a price tag of around $185 million.

This is $100 million more than the latest Sturgeon class atomic sub whose mission is to hunt and kill enemy underwater craft.

The authorization was a partial victory for Vice Adm. Hyman G. Rickover, the Navy's nuclear expert, who was pushing the Pentagon for advanced American submarines to meet the growing Soviet undersea force.

But as Clifford announced he had authorized the new sub Rickover helped design, he left open the possibility another Rickover favorite—a superquiet sub—may get the ax.

This submarine, which could track enemy vessels with great stealth, was approved last year but the Pentagon has been threatening to abandon it to save money.

Rickover, a congressional favorite, has been arguing through Capitol Hill committees for the quiet sub, but the outlook has dimmed. Clifford said a decision on its fate will be forthcoming in the next few weeks.

The approved sub—Clifford didn't say how much faster it would be than present 30-knot vessels—is slated for full budgeting in 1970, defense officials said. Long-lead-time parts are sought under the fiscal 1969 budget now before Congress.

The authorized nuclear attack force stands at 69 submarines about half of which have been built, with the other half either under construction or approved.

Work on the last four is scheduled to begin in 1969 and 1970, and defense officials said the high-speed version will be one of the last two models.

16 Fired At Weirton In Sanitation Dispute

WEIRTON (AP) — The 16 Weirton sanitation workers who were fired Thursday for their participation in a strike may reapply for their jobs.

City Manager James Lord said, however, the men would have to go through regular hiring procedures.

Lord said 16 of the city's 17 sanitation workers were dismissed after they left their jobs Thursday and went on strike in a dispute over wages.

The other worker was reported to be supervisory personnel and, therefore, not on strike.

The workers are seeking increases of 30 per cent, from $19.60 a day to $25.50 for drivers and $18.64 a day to $24 for loaders.

Security Will Be Strict For Trial Of Ray

MEMPHIS, Tenn. (AP) — Officials preparing for what promises to be the biggest Tennessee trial since the famous "monkey trial" of 1925 are making strict security arrangements.

Officials said Thursday that plans are being made to make a voice and picture tape of every person attending the trial of James Earl Ray, charged with assassinating Dr. Martin Luther King Jr. here on April 4.

This would be the first trial anywhere that such a security precaution has been required, Charles Holmes, public relations aide to Sheriff William N. Morris, said.

Newsmen accredited to cover the trial, expected to be held in late fall, will be given identification cards bearing their photographs.

The trial is scheduled to be held in one of the Shelby County Criminal Court courtrooms so Ray can be brought directly into the court through an underground corridor without being seen by the outside public.

A secondary security line is expected to be established to keep everyone without pressing business out of the Criminal Courts building.

Conviction Upheld

NEW YORK (AP) — The 1966 conviction of former Rep. Adam Clayton Powell on a charge of criminal contempt of court, which led to a 30-day jail sentence and a $500 fine, has been upheld by a three-to-two vote of the Appellate Division of the State Supreme Court.

Crews Find Body Of Man Off Towboat

The body of a man believed to be that of a deckhand who fell off a towboat in the Midland area Wednesday afternoon was found in the Ohio River off Little England about 10:30 a.m. today.

Spotted by employes of the S. H. Bell Co.'s dock near Little England, the body was identified tentatively as that of Charles Moore, 43, of Tifton, Ga., missing from the boat Bayou LaRose of New Orleans.

Authorities were awaiting the arrival of Squire John Herron of New Cumberland, Hancock County coroner, to continue the investigation, as the river is in West Virginia jurisdiction. An ambulance was standing by to await the coroner's arrival.

Patrolman Charles A. Winters, desk officer at headquarters, was notified of the discovery of the body at 10:34 this morning by Paul Vincent, the Bell firm's terminal manager.

Authorities said the body was found close to a barge which had been dropped at the Bell docks for unloading.

Bell company employes spotted the body while on a coffee break. It was brought to shore by a Coast Guard crew from Sewickley, headed by Petty Officer 1C Gerald Rowh. The Coast Guard boat was in the area as part of a continuing search for the missing crewman.

Moore was seen last as the downbound Bayou LaRose passed Georgetown Island. He was near the stern railing smoking a cigarette when last seen, other crew members said.

The boat was headed from Springdale, Pa., to Cincinnati with a tow of two empty oil barges.

Griffin Launches Attack On Court Appointments

WASHINGTON (AP) — The leading opponent of President Johnson's Supreme Court nominations say the two appointees may have been part of "a flagrant disregard of the constitutional doctrine of separation of powers."

Sen. Robert P. Griffin, R-Mich., made the remark Thursday on the Senate floor in a preview of his testimony today before the Senate Judiciary Committee as it continued hearings into the nomination of Abe Fortas as chief justice and Homer Thornberry as associate justice.

Thornberry now is a judge on the federal Court of Appeals in New Orleans.

Fortas Due Soon

The Judiciary Committee opened hearings into the nominations Thursday, but put off questioning of Fortas until next week.

Griffin said he wanted to know how big a role Abe Fortas, nominated to succeed Earl Warren as chief justice, played in White House decisions while serving on the court since 1965. Fortas is a longtime Johnson friend and adviser.

And, Griffin said, he also wants to know why Thornberry, another old friend of the Presi-

At Senate Hearing

Griffin Launches Attack On Court Appointments

WASHINGTON (AP) — The leading opponent of President Johnson's Supreme Court nominations say the two appointees may have been part of "a flagrant disregard of the constitutional doctrine of separation of powers."

Sen. Robert P. Griffin, R-Mich., made the remark Thursday on the Senate floor in a preview of his testimony today before the Senate Judiciary Committee as it continued hearings into the nomination of Abe Fortas as chief justice and Homer Thornberry as associate justice.

Thornberry now is a judge on the federal Court of Appeals in New Orleans.

Fortas Due Soon

The Judiciary Committee opened hearings into the nominations Thursday, but put off questioning of Fortas until next week.

Griffin said he wanted to know how big a role Abe Fortas, nominated to succeed Earl Warren as chief justice, played in White House decisions while serving on the court since 1965. Fortas is a longtime Johnson friend and adviser.

And, Griffin said, he also wants to know why Thornberry, another old friend of the Presi-

Traffic Rolls Across Span On Sunnyside

Without benefit of the traditional ribbon - cutting ceremony, traffic has started to roll across the new $252,867 auto-pedestrian ramp linking together the two deadend sections of W. 9th St. in Sunnyside.

Announcing the opening of the concrete span today, Mayor George E. Willshaw pointed out the Ohio Highway Department considered the bridge as part of a city street and therefore did not set up a formal opening rite.

The bridge is 241 feet long, with two 14-foot traffic lanes and a five foot sidewalk on the north side.

The general contractor is the A. P. O'Horo Co. of Youngs-

Mrs. Martsolf Chosen

Director Named For New School

LISBON — The Columbiana County Board of Mental Retardation has employed Mrs. Edith Martsolf of Salem RD 3 as administrator of the Robert Bycroft School.

Mrs. Martsolf has been with the county retarded school program since the first class was formed in 1955. She served that year as assistant teacher and bus driver.

She will succeed John Gruszecki of Hanoverton, administrator the last three years, who has resigned to teach junior high arithmetic and mechanical drawing at United School near Hanoverton.

—:—

MRS. MARTSOLF has been assistant administrator since January. Prior to that she was home trainer for the program, working out of the county Welfare Department office. She will receive $728 a month. She received a B.A. degree in psychology from Youngstown State University in June.

Board members studied three other applications for the post before hiring the new administrator Wednesday night. They interviewed David Claypool of Lisbon and Mrs. Evelyn Bibbee of East Liverpool and reported Claypool declined because of the salary and Mrs. Bibbee did not meet state standards. An application of Edward Babb of East Liverpool could not be considered, they said, because of a lack of advanced training.

Judge Louis Tobin of East Liverpool, a member of the board, asked that the minutes record the board's appreciation of Gruszecki's work and its wish for success in his new endeavor. Mrs. Ruth Kauffman of Lisbon, president, was in charge.

—:—

IN OTHER action, the board:

Hired Priscilla Keller of Salem as a teachers' aide at $305 per month beginning in September.

Approved renewal of the pupil insurance coverage with the Blankenship Insurance Agency.

Heard Bill Hiscox, workshop supervisor, report a carton-assembling contract with the Packard Electric Co. will require the workshop to be open through August, and voted to have the workers stagger vacations so the workshop can remain in production year-round.

Authorized three members of the school staff to attend a seminar at Bowling Green State University.

Reclassified Jan Southall of East Liverpool from instructor 2 to instructor 3.

Granted Robert Boyce, county home superintendent, use of a bus for one day to take home residents to the County Fair, providing he drives and furnishes insurance.

Wrote a letter of intent to the county commissioners, stating the board will rent a portion of the Hill Building (county office building on E. Washington St.) as a workshop if it is remodeled as required.

Gave Mrs. William Gibson of Lisbon a leave of absence without pay until Sept. 1 because of illness.

Hired Fred Hislip as a full-time bus driver.

The board hopes to be able to move classes into the New Robert Bycroft School on Route 172, west of Lisbon, by the first of the year. Classes will meet in Lisbon and at the old Elkton School until the new building is ready.

The next meeting will be at 7 p.m. Aug. 5 in Judge Tobin's chambers at the Courthouse.

Ship Ripped By Explosion

SCHIEDAM, Netherlands (AP) — A huge explosion ripped through an Italian-Panamanian tanker just before dawn today as its tanks were being cleaned, and six Dutch workers were missing. Eleven other Dutch workers were injured, seven of them seriously.

The explosion ripped a hole more than 120 feet in diameter in the side of the 23,307-ton Agua Clara, which is owned by Italians and registered in Panama.

The ship's Italian crew was not aboard at the time. The tanker had been brought empty to a tank cleaning firm in Schiedam prior to being taken to a Rotterdam yard for examination.

Although police said there was no fire after the explosion, an office building and a private house nearby were badly damaged and may have to be demolished.

Live Grenade Wired To Car

ROSLYN HARBOR, N.Y. (AP) — Police found a live hand grenade wired to the private car of Nassau County Executive Eugene H. Nickerson Thursday night after receiving an anonymous telephone tip.

Nassau County Police Commissioner Francis Looney ordered a round-the-clock guard on Nickerson, a Democrat who holds the highest elective office in the county and his family.

Police received the call shortly after 7 p.m. and located Nickerson with his daughter, Susan, 19, at a private gathering. His official car was checked and nothing was found.

Other officers alerted Mrs. Nickerson at home and told her not to go near the family cars. Detectives found the device in a third family car usually used by his daughters.

Detective Arthur Cunn said the fragmentation-type grenade was wired behind the dashboard to a heater switch. Turning the switch would have set off the grenade, he said.

Cunn said the person who installed it "really knew what he was doing."

Cunn found he was unable to disarm the device and so an area was cleared and all other persons took cover. When he removed the grenade he tossed it into the cleared area and it exploded before it hit the ground.

The Nickersons said the car had not been used for several days.

Funkstown Sheep Fail In Their Job

FUNKSTOWN, Md. (AP) — Why cut the grass around the town lagoon? Just get some sheep and let them nibble it off. That was the argument Clarence Stockslager, town maintenance man, used on the burgess and commissioners.

So he bought 17 head of sheep and turned them loose. The sheep grazed for a couple of weeks. The grass got longer. The town fathers' tempers got shorter.

Finally, Funkstown bought a mower.

The sheep are still moping around the lagoon. But the mower does all the work.

Big 'Bug House' Holds Thousands Of Insects

RIVERSIDE, Calif. (AP) — Down a long labyrinth of dark passageways walk three men barefooted. Their only lights are Japanese lanterns. A faint buzzing grows louder as the men proceed through locked vaults with steel doors 18 inches thick.

Then, the last door shuts. They are inside with...the bugs. Thousands and thousands of bugs.

Mrs. Martsolf Chosen

Director Named For New School

LISBON — The Columbiana County Board of Mental Retardation has employed Mrs. Edith Martsolf of Salem RD 3 as administrator of the Robert Bycroft School.

Mrs. Martsolf has been with the county retarded school program since the first class was formed in 1955. She served that year as assistant teacher and bus driver.

She will succeed John Gruszecki of Hanoverton, administrator the last three years, who has resigned to teach junior high arithmetic and mechanical drawing at United School near Hanoverton.

—:—

MRS. MARTSOLF has been assistant administrator since January. Prior to that she was home trainer for the program, working out of the county Welfare Department office. She will receive $728 a month. She received a B.A. degree in psychology from Youngstown State University in June.

Board members studied three other applications for the post before hiring the new administrator Wednesday night. They interviewed David Claypool of Lisbon and Mrs. Evelyn Bibbee of East Liverpool and reported Claypool declined because of the salary and Mrs. Bibbee did not meet state standards. An application of Edward Babb of East Liverpool could not be considered, they said, because of a lack of advanced training.

Judge Louis Tobin of East Liverpool, a member of the board, asked that the minutes record the board's appreciation of Gruszecki's work and its wish for success in his new endeavor. Mrs. Ruth Kauffman of Lisbon, president, was in charge.

—:—

IN OTHER action, the board:

Hired Priscilla Keller of Salem as a teachers' aide at $305 per month beginning in September.

Approved renewal of the pupil insurance coverage with the Blankenship Insurance Agency.

Heard Bill Hiscox, workshop supervisor, report a carton-assembling contract with the Packard Electric Co. will require the workshop to be open through August, and voted to have the workers stagger vacations so the workshop can remain in production year-round.

Authorized three members of the school staff to attend a seminar at Bowling Green State University.

Reclassified Jan Southall of East Liverpool from instructor 2 to instructor 3.

Granted Robert Boyce, county home superintendent, use of a bus for one day to take home residents to the County Fair, providing he drives and furnishes insurance.

Wrote a letter of intent to the county commissioners, stating the board will rent a portion of the Hill Building (county office building on E. Washington St.) as a workshop if it is remodeled as required.

Gave Mrs. William Gibson of Lisbon a leave of absence without pay until Sept. 1 because of illness.

Hired Fred Hislip as a full-time bus driver.

The board hopes to be able to move classes into the New Robert Bycroft School on Route 172, west of Lisbon, by the first of the year. Classes will meet in Lisbon and at the old Elkton School until the new building is ready.

The next meeting will be at 7 p.m. Aug. 5 in Judge Tobin's chambers at the Courthouse.

Cyclist Fined On 2 Charges

A 23-year-old motorcyclist was fined a total of $25 and costs today by Municipal Judge Samuel M. Chertoff on two charges filed by the Ohio Highway Patrol.

Charles W. Newlin of 422 Morton St. pleaded guilty to riding the cycle without a proper muffler, on which he was fined $15 and costs, and while lacking an approved safety helmet, for which the penalty was $10 and costs.

The patrol reported Newlin was arrested Thursday at 10:30 a. m.. He was wearing a Nazi German helmet in place of the protective headgear required by law, the patrol said. The gas feed was broken and Newlin operated it by "pushing and pulling on a wire," the patrol said. In addition, the headlight was taped in place, the officers said.

Meanwhile, John Elliott Myler of RD 2 was ordered to pay the court costs on a charge of operating an unsafe vehicle. Myler told the court he made repairs on the 1956 model truck after he was cited by the patrol Tuesday at 9:10 p. m. on Route 30.

After supervising the loading of the ammunition and other needed supplies aboard a helicopter, he made several low-level flights through heavy enemy ground fire to make the delivery.

Following the fourth trip, Ebaugh remained on the ground to direct distribution of the munition. He was credited with contributing to the ultimate defeat of the enemy.

Ship Ripped By Explosion

SCHIEDAM, Netherlands (AP) — A huge explosion ripped through an Italian-Panamanian tanker just before dawn today as its tanks were being cleaned, and six Dutch workers were missing. Eleven other Dutch workers were injured, seven of them seriously.

The explosion ripped a hole more than 120 feet in diameter in the side of the 23,307-ton Agua Clara, which is owned by Italians and registered in Panama.

The ship's Italian crew was not aboard at the time. The tanker had been brought empty to a tank cleaning firm in Schiedam prior to being taken to a Rotterdam yard for examination.

Although police said there was no fire after the explosion, an office building and a private house nearby were badly damaged and may have to be demolished.

Live Grenade Wired To Car

ROSLYN HARBOR, N.Y. (AP) — Police found a live hand grenade wired to the private car of Nassau County Executive Eugene H. Nickerson Thursday night after receiving an anonymous telephone tip.

Nassau County Police Commissioner Francis Looney ordered a round-the-clock guard on Nickerson, a Democrat who holds the highest elective office in the county and his family.

Police received the call shortly after 7 p.m. and located Nickerson with his daughter, Susan, 19, at a private gathering. His official car was checked and nothing was found.

Other officers alerted Mrs. Nickerson at home and told her not to go near the family cars. Detectives found the device in a third family car usually used by his daughters.

Detective Arthur Cunn said the fragmentation-type grenade was wired behind the dashboard to a heater switch. Turning the switch would have set off the grenade, he said.

Cunn said the person who installed it "really knew what he was doing."

Cunn found he was unable to disarm the device and so an area was cleared and all other persons took cover. When he removed the grenade he tossed it into the cleared area and it exploded before it hit the ground.

The Nickersons said the car had not been used for several days.

Funkstown Sheep Fail In Their Job

FUNKSTOWN, Md. (AP) — Why cut the grass around the town lagoon? Just get some sheep and let them nibble it off. That was the argument Clarence Stockslager, town maintenance man, used on the burgess and commissioners.

So he bought 17 head of sheep and turned them loose. The sheep grazed for a couple of weeks. The grass got longer. The town fathers' tempers got shorter.

Finally, Funkstown bought a mower.

The sheep are still moping around the lagoon. But the mower does all the work.

A dance will be held Thursday, with music by "The Other Half," a five-piece combo from Carrollton. The group includes Greg Smith, rhythm guitar; Larry Jenkins, lead guitar; Tom Reed, guitar; Abby Owens, organ, and Greg Kochan, drums.

A horse show will be held Saturday afternoon and evening, with Kenny Thomas in charge.

John Baker and James Baker are chairmen for the homecoming.

Note Of Cheer From Charleston

Welcome is the word out of Charleston that West Virginia authorities have retained an engineering firm to conduct a preliminary survey for a new bridge in this area to replace the deteriorating Chester Bridge.

It has been seven months since a load limit was placed on the aging span, four months since engineers who found the cable corrosion urged replacement of the bridge.

The ban on truck and bus travel has had a serious effect upon the economic base of the whole district — recognized immediately by the North Hancock County Development Organization which moved quickly to press for action toward obtaining a new bridge.

It will be five months before the new study can present a report, and those who had hoped for speedy progress toward construction are obviously doomed to disappointment as a result of the near vacuum of responsibility for the project and the financing. The money factor remains the gigantic problem even after the report is filled.

But the West Virginia move is evidence of willingness of officials of that state to help solve the transportation crisis here, and it is still to be hoped that cooperation between Ohio and West Virginia will lead to a modern bridge by 1971 as Gov. Hulett Smith promised recently.

Pompidou Gets The Ax

Apparently political fortunes are no better protected in France than elsewhere in the world.

The winds of fate — with President Charles de Gaulle pumping away with his bellows — have blown popular Premier Georges Pompidou out of his job.

President de Gaulle has said only that he will make public at a later date his reasons for ousting Mr. Pompidou.

The situation is most unusual.

PREMIER POMPIDOU was at the head of the battle against revolting students and workers last month and was instrumental in bringing the crisis to an end.

President de Gaulle was out of the country when the revolution broke and the burden of preserving stability fell solidly on the shoulders of the premier.

Mr. Pompidou was in touch with President De Gaulle throughout the early stages of the rebellion, but it was the duty of the premier to hold the fort until Mr. De Gaulle returned.

When national elections were held in France June 23 and 30, the Gaullists were landslide victors. For the first time in the history of the country a single party was given an absolute majority in Parliament.

Premier Pompidou campaigned hard and wielded great influence in fashioning the tremendous victory.

Following the election, Mr. Pompidou sounded a call for a broadly based government coalition to seek basic social and economic reform.

The world press commented that the De Gaulle-Pompidou effort had seemingly pulled France out of the fire and the country was well on its way toward beneficial and long-overdue changes.

GLOWING ACCOUNTS were written about Mr. Pompidou's part in the events that shaped the future of France.

How he managed to fall into disfavor so quickly is a matter of speculation until President De Gaulle chooses to make the reasons public.

Concerning the French election, the New York Times editorialized: "France looked in the mirror, felt it saw anarchy in its face and turned away."

Until more facts come to light, it would appear President De Gaulle looked in the mirror, saw the countenance of Mr. Pompidou in the future of France and turned the mirror to the wall.

New Threat To Peace

A great deal of energy is being expended in the United States today to strengthen gun legislation and expand registration of weapons.

Likewise much thought and effort is being devoted to averting just such legislation.

Without going into the merits pro or con of the gun issue, it seems reasonable that as much or more energy ought to be expended to devise a defense against a possible attack against this nation by "gun" which potentially can kill hundreds of thousands of Americans with one "shot."

Stanford University's Hoover Institution on War, Revolution and Peace said the Red Chinese, upon completion of a research study, are likely to have 12 to 15 diesel-powered submarines capable of firing nuclear missiles off American shores by 1976.

Russia already has those "guns" there pointing at America's heartland. But, somehow, the thought that Red China might soon have them there strikes terror into the bravest heart.

Undoubtedly some lives can be saved by new gun legislation but the possibility of saving perhaps millions of lives by developing a workable defense against submarine-launched missiles seems more urgent.

Red China surprised world observers by developing its atomic bomb capability much faster than was believed possible. The same could occur with respect to the nuclear-armed submarine.

New Light On American West

For a long time many archaeologists held to the theory that human life disappeared from much of the American West during an extended post-glacial drought.

Now comes a challenge to that theory in the discovery of artifacts unearthed in a Utah cave.

Teams of students from universities across the nation have carefully cut a 14-foot-deep trench in the floor of the hillside cave on an arm of the Great Salt Lake Desert.

According to Jesse D. Jennings of the University of Utah, who is heading the project, carbon-dated samples taken on 16 cave levels show continuous human habitation from 6400 B.C. to 1600 A.D.

So dry is the cave site that some animal bones dating to the immediate preChristian era still contain sinews and muscle fiber. The conglomeration of artifacts is so diversified that the archaeologists believe they are digging through a prehistoric garbage heap.

Regardless of whether it is a garbage heap or not, it is being very productive in artifacts and consequently is providing the scientists with new facts which, in turn, will trace more clearly the history of man in America.

Such discoveries are not only exciting, they give us something to read about other than new crises.

Letter To The Editor

I am writing in regard to our city's drag way. It is not like Salem's which is organized and has its rules and regulations, but it is a drive and you pass at your own risk with no set order or rules.

I am referring to our own St. Clair Ave. Drivers are setting their own pace and speed any time of the day, and pass at any time, yet there is only one lane for both directions of passing traffic.

It is said that a car in a private garage can't kill or hurt anyone unless it has a driver. I feel more than half the drivers on St. Clair Ave. should leave their cars in the garage to protect not only themselves but our whole city.

If only our police could be everywhere at once, I feel they could stop the careless driving. I also feel, as I would imagine many others feel, that I would rather see my friend get a speeding ticket than get a hospital room for careless thinking while driving.

Please help my friends stay alive, and keep our hospitals out of tenants. Drive like you know how to. Be patient today and not a patient tomorrow.

Penalty Of Disagreement

VICTOR RIESEL

West Berlin Warns Rioters

When the students on this side of the grim wall began to tear West Berlin apart, I put through a telephone call to the Governing Mayor (Las he's called) of that freedom city.

I asked him, successor to such world-famed mayors as Ernst Reuther and Willy Brandt, what he would do to preserve West Berlin's liberties, won in so much blood and danger.

Victor Riesel

Mayor Schuetz asked me to wait a few days and he would reply, but he did say that freedom gave no one the right to destroy the peace and liberty of others. Then came his written answer. Here it is:

By KLAUS SCHUETZ
Governing Mayor of West Berlin

WEST BERLIN — For two years now there has been a certain unrest in Berlin. Students have been criticizing, protesting and demonstrating.

What are the reasons?

The criticism of the students was ignited by the obsolete structure and the hierarchic setup of the universities. The students have called for thorough reforms and, in their words, the democratization of the universities. Against these demands there are no basic objections.

The Senate and the democratic parties of West Berlin have presented to the Berlin Legislature drafts of a new university law. These proposals are being discussed and hearings are being held. Without doubt, the new university law will be passed as soon as possible after thorough discussions are concluded.

The student' criticism, however, has not limited itself to the institutes of higher education. The delayed university reform in the Federal Republic—Berlin, it should be noted, has a comparatively modern constitution for its universities—motivated them to ask the reasons for these delays.

THE STUDENTS FELT that their studies and university life could not be treated in isolated fashion from the rest of society, but that their difficulties reflect shortcomings within the society itself. The reform of the universities should, therefore, in their opinion be coordinated with a reform of society, or—in other words—only a society that has reformed itself would even be in a position to carry out a meaningful university reform.

The criticism directed against the universities has expanded to a criticism of the entire Federal Republic. They criticize the path taken by the Federal Republic since it was founded. Having overcome their economic recession, the German people it is claimed, doze on in a state of affluence; as before they are more obedient subjects than they are alert citizens.

It is claimed that the sterility of an establishment which continuously needs to justify and assert itself, hinders the further development of a living democracy, that the administration of that democracy has become the monopoly of the establishment.

The democracy so accused by no means refuses to debate with its student critics. In fact, talks are being held between the students and the Federal Government, the Berlin Senate, the political parties and organizations such as the labor unions.

But there is a rift running through these debates which affects the very basis of our society.

The Federal Government, the Berlin Senate and the parties adhere strictly to the principle of parliamentary democracy. The radical core of the student critics who have formed themselves into the Socialist German Student Association (SDS) has delcared war on this principle.

Their criticism of the Federal Republic of Germany and its society has escalated to the point where they have announced that they intend to change the prevailing order by revolutionary means. The so-called "violence used by those in power" should in their view be opposed by violence.

STARTING OUT FROM the universities, the "anti-authoritarian masses" would advance with increasing political awareness in a wave of actions against state authority, in order to liberalize themselves from such authority.

A continuous process of political action would be applied to replace parliamentary democracy by a democracy of councils, the democracy of groups that form and act spontaneously, in which there is no place for ruling establishments, because these groups themselves would continue to act and react with absolute political awareness.

The goal of these radical students is a so-called free creative society in a free and happy world.

This concept of democracy is sterile. It is the simplest form of democracy; it knows no conflicts. For this reason it is a utopia that finds enthusiastic followers.

These students do not ask about the actual conditions in society, and what has to be done, and what the immediate tasks are. They are fascinated and entranced by the idea of a society free of conflicts.

The sterility of their goal is tantamount to the radical way of their procedure, which does not even fear violent action.

In Berlin the criticism of these students and their actions has come up against a population which has known external threats against their city during the past two decades but no unrest from within. The Berliners have withstood the blockade and the Khrushchev ultimatum and for seven years they have lived in a city torn apart by the wall; they live separated from their immediate surrounding areas.

In view of this situation they have no understanding for the radical criticism of the students. They cannot understand how someone could aim for the elimination of their parliamentarian democratic society order. And they have just a little understanding for the formation of a "democracy of council," as desired by the students and which is patterned after a Communist model.

BUT THE AVERSION felt by the Berliners against such student goals has yet another root which goes perhaps even deeper. No other European city is in a situation comparable to that of Berlin. No other city in Europe has to rely on protection the way Berlin does.

This protection and the safety of its existence is guaranteed by the Western Allies of the Federal Republic of Germany, especially by the United States of America, who are present in Berlin as protective powers.

Every Berlin citizen knows this and is grateful. And this is why he reacts twice as sensitively to the criticism voiced by the students, as more often than not it includes a criticism of the United States because of the war in Vietnam.

To many, criticism of the United States is intolerable. It appears unfair and ungrateful. They consider criticism of the United States tantamount to a threat against their own existence.

They identify the fate of the United States with the fate of West Berlin. And they are not inclined to surrender their city of Berlin to any experiments, having wrested it from almost total chaos and, despite the threats from outside, having rebuilt it to a city of industry and culture.

The Berlin Senate owes it to this city's population, that it shall not bow to violence as a form of political dispute. To us the use of police force is not a means of political argument. But it is there to see that neither people nor property are harmed.

Peace Speculation

What would be the advantage to the North Vietnamese to hold off until after the November elections in the United States before making peace? Is there any chance of an agreement in Paris prior to the selection of a new president here four months hence?

These questions are producing considerable speculation behind the scenes, because the answers could mean that the conferee in Paris would find themselves either involved in a protracted negotiation or suddenly confronted with a peace plan which could conceivably precipitate an immediate agreement.

Those who are familiar with what is going on diplomatically say that the North Vietnamese have completely misconstrued the significance of the presidential campaign in the United States and do not understand that the incumbent administration could not possibly accept a formula which could be interpreted by millions of American voters as abject surrender.

SIMILARLY, the North Vietnamese are mistaken if they assume that a victory for either the Republican or the Democratic presidential nominee would mean a willingness to accept a "peace at any price" arrangement.

Basically, all these matters are directly related to the capability of the North Vietnamese to continue the military effort in South Vietnam.

The strategy worked out in Hanoi was to find a way to come to the conference table — maybe catch the Americans in a mood to make substantial concessions — and at the same time secure some kind of de-escalation of American ground fighting as well as bombing.

This was absolutely necessary in order to afford the North Vietnamese an opportunity to get military supplies to their forces, as unquestionably they had been badly hurt in the last several months. Not only were manpower losses large, but there have been fewer South Vietnamese recruited to help the Communist military effort.

The truth is there are some signs of a split in Hanoi. The number of North Vietnamese and Viet Cong killed since the first of the year is in excess of 115,000. The military men have not wanted to hit the cities and risk the heavy casualties, but have advocated instead the protracted guerrilla-type war which they believe would ultimately bring victory.

The political people, on the other hand, have pushed the attacks on the cities as a means of creating an appearance of strength from which to negotiate, thus providing a more favorable climate for talks.

They have held out the possibility that massive attacks on Saigon, for instance, would cause the United States to accept almost any kind of peace formula.

Actually, if the North Vietnamese and their Communist allies conclude that the United States is likely to make peace if there is a huge assault on Saigon, they could not be more mistaken. For the realistic result in this country would be a demand to resume unlimited bombing of North Vietnam.

Another question that is beginning to be asked here is just what kind of agreement or treaty will be signed, and by whom. If the Vietnam conflict is an "undeclared war," as has been contended by some critics, it would be natural for them to demand that Congress, by joint resolution, be required to approve any agreement made.

Likewise, it seems probable that the six other countries which are allied with the United States — South Vietnam, Australia, New Zealand, The Philippines, South Korea and Thailand — would request an opportunity to sign the document.

For it unquestionably will contian provisions requiring guarantees that the agreement will be respected.

This would certainly justify the United States and its allied signatories in uniting again, if necessary, to repel any acts of aggression or deal with any other violations of the agreement.

IT IS DOUBTFUL that any kind of document other than a simple cease-fire could be drawn up and approved by the United States and its allies before the November election.

The likelihood, therefore, is that whichever way the fortunes of war may go between now and Nov. 5, there will be little inclination to make a final agreement until after a president-elect has been chosen in this country.

Certainly the incoming and outgoing administrations, even though they may be of opposite parties, would work closely together in the 11 weeks intervening between election and the day a new president comes to the White House Jan. 20, 1969.

Note Of Cheer From Charleston

Welcome is the word out of Charleston that West Virginia authorities have retained an engineering firm to conduct a preliminary survey for a new bridge in this area to replace the deteriorating Chester Bridge.

It has been seven months since a load limit was placed on the aging span, four months since engineers who found the cable corrosion urged replacement of the bridge.

The ban on truck and bus travel has had a serious effect upon the economic base of the whole district — recognized immediately by the North Hancock County Development Organization which moved quickly to press for action toward obtaining a new bridge.

It will be five months before the new study can present a report, and those who had hoped for speedy progress toward construction are obviously doomed to disappointment as a result of the near vacuum of responsibility for the project and the financing. The money factor remains the gigantic problem even after the report is filled.

But the West Virginia move is evidence of willingness of officials of that state to help solve the transportation crisis here, and it is still to be hoped that cooperation between Ohio and West Virginia will lead to a modern bridge by 1971 as Gov. Hulett Smith promised recently.

Pompidou Gets The Ax

Apparently political fortunes are no better protected in France than elsewhere in the world.

The winds of fate — with President Charles de Gaulle pumping away with his bellows — have blown popular Premier Georges Pompidou out of his job.

President de Gaulle has said only that he will make public at a later date his reasons for ousting Mr. Pompidou.

The situation is most unusual.

PREMIER POMPIDOU was at the head of the battle against revolting students and workers last month and was instrumental in bringing the crisis to an end.

President de Gaulle was out of the country when the revolution broke and the burden of preserving stability fell solidly on the shoulders of the premier.

Mr. Pompidou was in touch with President De Gaulle throughout the early stages of the rebellion, but it was the duty of the premier to hold the fort until Mr. De Gaulle returned.

When national elections were held in France June 23 and 30, the Gaullists were landslide victors. For the first time in the history of the country a single party was given an absolute majority in Parliament.

Premier Pompidou campaigned hard and wielded great influence in fashioning the tremendous victory.

Following the election, Mr. Pompidou sounded a call for a broadly based government coalition to seek basic social and economic reform.

The world press commented that the De Gaulle-Pompidou effort had seemingly pulled France out of the fire and the country was well on its way toward beneficial and long-overdue changes.

GLOWING ACCOUNTS were written about Mr. Pompidou's part in the events that shaped the future of France.

How he managed to fall into disfavor so quickly is a matter of speculation until President De Gaulle chooses to make the reasons public.

Concerning the French election, the New York Times editorialized: "France looked in the mirror, felt it saw anarchy in its face and turned away."

Until more facts come to light, it would appear President De Gaulle looked in the mirror, saw the countenance of Mr. Pompidou in the future of France and turned the mirror to the wall.

New Threat To Peace

A great deal of energy is being expended in the United States today to strengthen gun legislation and expand registration of weapons.

Likewise much thought and effort is being devoted to averting just such legislation.

Without going into the merits pro or con of the gun issue, it seems reasonable that as much or more energy ought to be expended to devise a defense against a possible attack against this nation by "gun" which potentially can kill hundreds of thousands of Americans with one "shot."

Stanford University's Hoover Institution on War, Revolution and Peace said the Red Chinese, upon completion of a research study, are likely to have 12 to 15 diesel-powered submarines capable of firing nuclear missiles off American shores by 1976.

Russia already has those "guns" there pointing at America's heartland. But, somehow, the thought that Red China might soon have them there strikes terror into the bravest heart.

Undoubtedly some lives can be saved by new gun legislation but the possibility of saving perhaps millions of lives by developing a workable defense against submarine-launched missiles seems more urgent.

Red China surprised world observers by developing its atomic bomb capability much faster than was believed possible. The same could occur with respect to the nuclear-armed submarine.

New Light On American West

For a long time many archaeologists held to the theory that human life disappeared from much of the American West during an extended post-glacial drought.

Now comes a challenge to that theory in the discovery of artifacts unearthed in a Utah cave.

Teams of students from universities across the nation have carefully cut a 14-foot-deep trench in the floor of the hillside cave on an arm of the Great Salt Lake Desert.

According to Jesse D. Jennings of the University of Utah, who is heading the project, carbon-dated samples taken on 16 cave levels show continuous human habitation from 6400 B.C. to 1600 A.D.

So dry is the cave site that some animal bones dating to the immediate preChristian era still contain sinews and muscle fiber. The conglomeration of artifacts is so diversified that the archaeologists believe they are digging through a prehistoric garbage heap.

Regardless of whether it is a garbage heap or not, it is being very productive in artifacts and consequently is providing the scientists with new facts which, in turn, will trace more clearly the history of man in America.

Such discoveries are not only exciting, they give us something to read about other than new crises.

Letter To The Editor

I am writing in regard to our city's drag way. It is not like Salem's which is organized and has its rules and regulations, but it is a drive and you pass at your own risk with no set order or rules.

I am referring to our own St. Clair Ave. Drivers are setting their own pace and speed any time of the day, and pass at any time, yet there is only one lane for both directions of passing traffic.

It is said that a car in a private garage can't kill or hurt anyone unless it has a driver. I feel more than half the drivers on St. Clair Ave. should leave their cars in the garage to protect not only themselves but our whole city.

If only our police could be everywhere at once, I feel they could stop the careless driving. I also feel, as I would imagine many others feel, that I would rather see my friend get a speeding ticket than get a hospital room for careless thinking while driving.

Please help my friends stay alive, and keep our hospitals out of tenants. Drive like you know how to. Be patient today and not a patient tomorrow.

West Berlin Warns Rioters

When the students on this side of the grim wall began to tear West Berlin apart, I put through a telephone call to the Governing Mayor (Las he's called) of that freedom city.

I asked him, successor to such world-famed mayors as Ernst Reuther and Willy Brandt, what he would do to preserve West Berlin's liberties, won in so much blood and danger.

Victor Riesel

Mayor Schuetz asked me to wait a few days and he would reply, but he did say that freedom gave no one the right to destroy the peace and liberty of others. Then came his written answer. Here it is:

By KLAUS SCHUETZ
Governing Mayor of West Berlin

WEST BERLIN — For two years now there has been a certuin unrest in Berlin. Students have been criticizing, protesting and demonstrating.

What are the reasons?

The criticism of the students was ignited by the obsolete structure and the hierarchic setup of the universities. The students have called for thorough reforms and, in their words, the democratization of the universities. Against these demands there are no basic objections.

The Senate and the democratic parties of West Berlin have presented to the Berlin Legislature drafts of a new university law. These proposals are being discussed and hearings are being held. Without doubt, the new university law will be passed as soon as possible after thorough discussions are concluded.

The student' criticism, however, has not limited itself to the institutes of higher education. The delayed university reform in the Federal Republic—Berlin, it should be noted, has a comparatively modern constitution for its universities—motivated them to ask the reasons for these delays.

THE STUDENTS FELT that their studies and university life could not be treated in isolated fashion from the rest of society, but that their difficulties reflect shortcomings within the society itself. The reform of the universities should, therefore, in their opinion be coordinated with a reform of society, or—in other words—only a society that has reformed itself would even be in a position to carry out a meaningful university reform.

The criticism directed against the universities has expanded to a criticism of the entire Federal Republic. They criticize the path taken by the Federal Republic since it was founded. Having overcome their economic recession, the German people it is claimed, doze on in a state of affluence; as before they are more obedient subjects than they are alert citizens.

It is claimed that the sterility of an establishment which continuously needs to justify and assert itself, hinders the further development of a living democracy, that the administration of that democracy has become the monopoly of the establishment.

The democracy so accused by no means refuses to debate with its student critics. In fact, talks are being held between the students and the Federal Government, the Berlin Senate, the political parties and organizations such as the labor unions.

But there is a rift running through these debates which affects the very basis of our society.

The Federal Government, the Berlin Senate and the parties adhere strictly to the principle of parliamentary democracy. The radical core of the student critics who have formed themselves into the Socialist German Student Association (SDS) has delcared war on this principle.

Their criticism of the Federal Republic of Germany and its society has escalated to the point where they have announced that they intend to change the prevailing order by revolutionary means. The so-called "violence used by those in power" should in their view be opposed by violence.

STARTING OUT FROM the universities, the "anti-authoritarian masses" would advance with increasing political awareness in a wave of actions against state authority, in order to liberalize themselves from such authority.

A continuous process of political action would be applied to replace parliamentary democracy by a democracy of councils, the democracy of groups that form and act spontaneously, in which there is no place for ruling establishments, because these groups themselves would continue to act and react with absolute political awareness.

The goal of these radical students is a so-called free creative society in a free and happy world.

This concept of democracy is sterile. It is the simplest form of democracy; it knows no conflicts. For this reason it is a utopia that finds enthusiastic followers.

These students do not ask about the actual conditions in society, and what has to be done, and what the immediate tasks are. They are fascinated and entranced by the idea of a society free of conflicts.

The sterility of their goal is tantamount to the radical way of their procedure, which does not even fear violent action.

In Berlin the criticism of these students and their actions has come up against a population which has known external threats against their city during the past two decades but no unrest from within. The Berliners have withstood the blockade and the Khrushchev ultimatum and for seven years they have lived in a city torn apart by the wall; they live separated from their immediate surrounding areas.

In view of this situation they have no understanding for the radical criticism of the students. They cannot understand how someone could aim for the elimination of their parliamentarian democratic society order. And they have just a little understanding for the formation of a "democracy of council," as desired by the students and which is patterned after a Communist model.

BUT THE AVERSION felt by the Berliners against such student goals has yet another root which goes perhaps even deeper. No other European city is in a situation comparable to that of Berlin. No other city in Europe has to rely on protection the way Berlin does.

This protection and the safety of its existence is guaranteed by the Western Allies of the Federal Republic of Germany, especially by the United States of America, who are present in Berlin as protective powers.

Every Berlin citizen knows this and is grateful. And this is why he reacts twice as sensitively to the criticism voiced by the students, as more often than not it includes a criticism of the United States because of the war in Vietnam.

To many, criticism of the United States is intolerable. It appears unfair and ungrateful. They consider criticism of the United States tantamount to a threat against their own existence.

They identify the fate of the United States with the fate of West Berlin. And they are not inclined to surrender their city of Berlin to any experiments, having wrested it from almost total chaos and, despite the threats from outside, having rebuilt it to a city of industry and culture.

The Berlin Senate owes it to this city's population, that it shall not bow to violence as a form of political dispute. To us the use of police force is not a means of political argument. But it is there to see that neither people nor property are harmed.

Hearing

(Continued from Page 1)

dent, served an extra five months in Congress in 1963 after being named a federal judge in Texas.

Griffin cited "reports that the arrangement was designed to insure Mr. Thornberry's vote on legislative issues during the interim."

The senator added: "This situation again suggests a flagrant dsregard of the constitutional doctrine of separation of powers."

Griffin said the committee should find out "how many times Mr. Fortas has been consulted, or the extent to which he has been involved, if at all, in actions and decisions of the White House while he has been a member of the court."

"If the doctrine of separate powers is important," Griffin said, "what justification could be offered in the event a member of the judicial branch should actively participate on a regular, undisclosed basis in decisions of the executive branch while serving on the bench?"

Agreement On Questioning

Shortly after the committee opened its hearing it agreed to a request by Sen. Sam J. Ervin Jr., D-N.C., that direct questioning of Fortas be delayed until next Tuesday.

The senator, a former justice of the North Carolina Supreme Court, said he wanted to do more research before quizzing Fortas about his "judicial philosophy."

Atty. Gen. Ramsey Clark, the day's only witness, tried to quiet doubts about the legality of the way Waren conditioned his retirement on the qualification of a successor by the Senate.

He said scores of federal judges have been nominated, as Johnson nominated Fortas, while their predecessors were still on the bench.

Ervin insisted, though, that Johnson was without legal authority to nominate Fortas and the Senate to confirm him until Warren makes his retirement "irrevocable."

Since Warren has said he would be obliged to stay on until a successor is confirmed, Ervin said, "it comes down to this: The Senate must confirm Mr. Fortas as chief justice or retain Mr. Warren as chief justice."

Young Humphrey Aids In Campaign

BOSTON (AP) — Vice President Hubert H. Humphrey's son says he would like Sen. Edward M. Kennedy of Massachusetts as his father's running mate if Kennedy can best help the ticket.

Hubert H. Humphrey III, in Boston to organize young business and professional men to support his father's presidential campaign, told a news conference he is confident the vice president will win the Democratic nomination.

The selection of the vice presidential candidate also is up to the convention, he said, but added: "I would like to see the man who will best help the Democratic ticket, and if that man is Sen. Ted Kennedy, then that's the man I want."

Ports Told To Find Ways To Move Cargo

SANDUSKY, Ohio (AP) — Anthony Blanco, director of CTI—Container Transport International, Inc., midwestern operations, told the Council of Lake Erie Ports Tuursday that ports which fail to find efficient ways to move cargo containers may be put out of business by larger ports.

He said some lesser ports "may have an advantage over the maior ports by being able to move containers in and out of the waterfront area with less delay from traffic jams."

Hospital Employes To Get Overtime Pay

COLUMBUS, Ohio (AP) — Certain non - professional employes at state hospitals will be getting back overtime pay due them since Feb. 1, 1967, Ohio personnel director Wayne Ward said Thursday.

The payments will be made in compliance with a June 10 U. S. Supreme Court ruling which upheld the constitutionality of overtime pay for certain school, hospital and nursing home employes of states and their political subdivisions.

Dispute Puts Hospital On Emergency Basis

STEUBENVILLE, Ohio (AP) — Officials at Ohio Valley Hospital here said today they are operating the institution on an emergency basis in preparation for a threatened strike by nurses July 22.

A hospital spokesman said no new patients will be accepted until the dispute over nurses' bargaining rights is settled.

"Critically ill patients who cannot be moved will be given special care," the spokesman added.

Entertainers In Vietnam

'Have Act, Will Travel!'

SAIGON (AP) — "I get more trouble from amorous club managers than I do from the Viet Cong," said the blonde dancer, one of the hundreds of entertainers criss-crossing the jungles of Vietnam these days.

The pop singers, guitarists, semistrippers and fire eaters haven't been scared away by the ambush attack last weekend which killed two teen-age members of the Brandi Perry act from Los Angeles.

"We've hung 'Have Act—Will Travel Anywhere' signs back on our baggage," said one agent. "Any GI club that wants us can have us, providing the price is reasonably right."

There are about 500 such clubs in American military bases scattered across South Vietnam from the Mekong Delta to the demilitarized zone. The farther away from Saigon, the better the price, which can run as high as $425 an hour for a top pop group.

The Army's commercial entertainment coordinator in Saigon keeps a careful watch on the conduct of both the entertainers and the club operators that book them.

Some performers say the worst part of playing Vietnam is the hours of waiting at dusty airports for military planes that never arrive, the dirt and the crude conditions at many clubs, and the "thousand foot sponge" of Vietnamese government bureaucracy they bog down in when they try to extend their stay in the country or go to get exit visas.

But the risk of Viet Cong attack is real, particularly at night on lonely roads between bases when there is a temptation for an entertainment group to squeeze in just one more performance before a nearby club closes.

Brandi Perry and the Bubble Machine was ambushed after dark on the Saigon-Vung Tau road, a locale notorious for attacks and kidnaping. U.S. military sources also report a Filipino singer was killed in a Viet Cong ambush three weeks ago near Qui Nhon, a coastal resort.

The safety of visiting entertainers is their own responsibility. But because of the recent fatalities, U.S. military authorities called the 50 registered booking agents in Saigon together for a briefing on basic safety procedures.

The Army's Special Services Division ordered that all entertainment groups obtain road and security information from the local provost marshal before using a highway.

Groups were also advised that armed escorts will be provided when they leave clubs after dark.

Police Catch Bank Robber

DAYTON, Ohio (AP) — FBI agents and police swooped down on the Centerville branch of the First National Bank of Miamisburg Thursday moments after the bank was held up for the third time this year.

A short time later authorities had in custody a daring bandit who had tried to elude the dragnet by posing as an FBI agent.

Maurice Raymond Des Jardines, 39, of Middletown was taken before U.S. Commissioner Robert L. Snell here and charged with three counts of bank robbery. The FBI said Des Jardines was charged with Thursday's $14,554 holdup, a $12,824 robbery at the bank April 30 and a $7,900 holdup June 17.

Bolt Kills Mare In Area Pasture

A bay - colored mare was killed by lightning Thursday night in a pasture near a barn owned by Mr. and Mrs. John Mellington of the Sprucevale Rd.

The 3-year-old, a child's pet, was found about 7:45 by Mrs. Mellington. The mare's year-old colt, in the same field, was not harmed.

Voluntary Car Check Announced By Patrol

COLUMBUS, Ohio (AP)—The Ohio Highway Patrol announced today it will begin a voluntary vehicle inspection program July 15, making it possible for drivers to take their vehicles to a pre-announced location for inspection.

Patrol Supt. Col. Robert M. Chiaramonte said the recent addition of a third inspection team in each patrol district makes such a plan possible.

Col. Chiaramonte asked that drivers watch their local newspapers for inspection times and locations.

town, which started preliminary work in mid - October 1967. The formal completion date is next Oct. 31.

Opening of the span restores traffic through the neighborhood to essentially the same pattern that existed before the construction of the first leg of the Freeway about eight years ago. W. 9th St. was chopped in two at former Chestnut St. to provide the right-of-way for the four-lane highway.

West End and Sunnyside residents then started a campaign to tie the two segments together with a span over the Freeway. The state and the Federal Bureau of Public Roads, which footed most of the bill for the Freeway, also picked up the bulk of the tab for the bridge.

Two stop signs are in place at junctions with W. 9th St., now that it is a through street again, the mayor pointed out.

The signs are on May St. at its junction with W. 9th, just west of the bridge, and at the point where a ramp leading from Lisbon St. connects with W. 9th, also just west of the bridge.

Four of the presidents of the United States were never elected to that office — John Tyler, Millard Fillmore, Andrew Johnson and Chester A. Arthur. These men became president on the death of a president.

The first census of the Christian era was ordered by Augustus Caesar, according to St. Luke, when Quirinius was governor of Syria. Everyone was to go to his city to be counted and taxed.

2,000 Attend Fair

EAST PALESTINE — About 2,000 attended the opening night of the 34th annual street fair and homecoming sponsored by American Legion Post 31. The Gambill Amusement Co. of Wintersville is providing the rides. A thunderstorm about 8 failed to halt the festivities, Robert Johnston, commander, said.

dent, served an extra five months in Congress in 1963 after being named a federal judge in Texas.

Griffin cited "reports that the arrangement was designed to insure Mr. Thornberry's vote on legislative issues during the interim."

The senator added: "This situation again suggests a flagrant dsregard of the constitutional doctrine of separation of powers."

Griffin said the committee should find out "how many times Mr. Fortas has been consulted, or the extent to which he has been involved, if at all, in actions and decisions of the White House while he has been a member of the court."

"If the doctrine of separate powers is important," Griffin said, "what justification could be offered in the event a member of the judicial branch should actively participate on a regular, undisclosed basis in decisions of the executive branch while serving on the bench?"

Agreement On Questioning

Shortly after the committee opened its hearing it agreed to a request by Sen. Sam J. Ervin Jr., D-N.C., that direct questioning of Fortas be delayed until next Tuesday.

The senator, a former justice of the North Carolina Supreme Court, said he wanted to do more research before quizzing Fortas about his "judicial philosophy."

Atty. Gen. Ramsey Clark, the day's only witness, tried to quiet doubts about the legality of the way Waren conditioned his retirement on the qualification of a successor by the Senate.

He said scores of federal judges have been nominated, as Johnson nominated Fortas, while their predecessors were still on the bench.

Ervin insisted, though, that Johnson was without legal authority to nominate Fortas and the Senate to confirm him until Warren makes his retirement "irrevocable."

Since Warren has said he would be obliged to stay on until a successor is confirmed, Ervin said, "it comes down to this: The Senate must confirm Mr. Fortas as chief justice or retain Mr. Warren as chief justice."

A City Dilemma

Smoke Causes Concern In Section Of East End

(Continued from Page 1)

said he gets the most calls in warm weather when windows are open and the wind is blowing from the scrap yard toward the Ohio River.

One of the neighborhood complainants is Ray Hammond of 929 Railroad St. He conceded he has no solution for the problem short of forcing the scrapyard operator to move his business or erect an expensive incinerator. And he added that he believes either action would be unreasonable. But on the other hand he is irritated by the smoke problem and what he terms "inconsistencies" in the city's policies on burning.

Hammond pointed out the fire department issued an order permitting burning of cardboard and paper by householders during the incinerator department strike, but decreed that only a certain standard container could be used for the bonfires. But on the other hand, it permits scrap yards to burn the interiors out of junked cars, setting much larger blazes, in unconfined areas, he said.

—:—

"I'M JUST A retired potter, I'm not an engineer," he said. "I don't know the solution."

In addition to the smoke and scraps of debris, hot ashes sometimes are wafted from the junk yard, posing a fire hazard, he said.

Berman was taken into Municipal Court in April 1966 on charges of improper refuse burning which were filed by VanDyne, then assistant fire chief.

The affidavit was filed April 5, alleging that on April 4 Berman "did unlawfully, as a junk dealer, burn rubbish or portions and parts of wrecked cars without the written consent of the chief of the fire department."

He appeared in court April 6, when the hearing was continued until April 8. On April 8, the case was continued until April 19 on the city's motion. The last entry was made on April 19, when the complaint was dismissed at the request of VanDyne. Berman's $57.50 bond was refunded.

The charge was filed under the former City Code. It was supplanted early this year by a later edition, but the provisions on fires in junk yards are substantially unchanged. The code chapter, related entirely to junk yard operations, says:

—:—

"NO RUBBISH or parts of wrecked machines and other accumulations which are to be discarded by such junk dealer shall be burned on such premises without the written consent of the chief of the fire department.

"No fire disposing of material accumulated in the yard shall be created less than 30 feet from any building. Where the yard in which such junk business is conducted is so small as to not permit compliance with this restriction, such person so operating such yard is required to build an incinerator within which the fires may be started to dispose of such refuse or other material desired to be destroyed by fire, or cleaned in such manner of grease and other collections."

The section is part of an omnibus ordinance on regulation of junk yards enacted by Council in 1959.

Rather than applying for a burning permit each time he touches off a fire, a junk yard operator may obtain a fire department authorization which is good for six months, the chief pointed out.

Potter Delegates Await Launching Of 74th Session

The vanguard of 175 delegates and officers already has arrived in Vancouver, British Columbia, where the International Brotherhood of Operative Potters will launch its 74th annual convention Monday morning.

The IBOP executive board, comprised of the 12 top officers, will meet before the official opening of the convention to appoint standing committees that will handle the bulk of the business. The convention will begin Monday at 9 a. m. in the Vancouver Hotel.

At least 33 resolutions are scheduled for consideration. The first session will be devoted to announcement of committee personnel by Secretary-Treasurer George Barbaree and official welcoming ceremonies.

Committees will meet each morning to consider questions placed before them. General sessions of the convention will be held each afternoon.

A City Dilemma

Smoke Causes Concern In Section Of East End

(Continued from Page 1)

said he gets the most calls in warm weather when windows are open and the wind is blowing from the scrap yard toward the Ohio River.

One of the neighborhood complainants is Ray Hammond of 929 Railroad St. He conceded he has no solution for the problem short of forcing the scrapyard operator to move his business or erect an expensive incinerator. And he added that he believes either action would be unreasonable. But on the other hand he is irritated by the smoke problem and what he terms "inconsistencies" in the city's policies on burning.

Hammond pointed out the fire department issued an order permitting burning of cardboard and paper by householders during the incinerator department strike, but decreed that only a certain standard container could be used for the bonfires. But on the other hand, it permits scrap yards to burn the interiors out of junked cars, setting much larger blazes, in unconfined areas, he said.

—:—

"I'M JUST A retired potter, I'm not an engineer," he said. "I don't know the solution."

In addition to the smoke and scraps of debris, hot ashes sometimes are wafted from the junk yard, posing a fire hazard, he said.

Berman was taken into Municipal Court in April 1966 on charges of improper refuse burning which were filed by VanDyne, then assistant fire chief.

The affidavit was filed April 5, alleging that on April 4 Berman "did unlawfully, as a junk dealer, burn rubbish or portions and parts of wrecked cars without the written consent of the chief of the fire department."

He appeared in court April 6, when the hearing was continued until April 8. On April 8, the case was continued until April 19 on the city's motion. The last entry was made on April 19, when the complaint was dismissed at the request of VanDyne. Berman's $57.50 bond was refunded.

The charge was filed under the former City Code. It was supplanted early this year by a later edition, but the provisions on fires in junk yards are substantially unchanged. The code chapter, related entirely to junk yard operations, says:

—:—

"NO RUBBISH or parts of wrecked machines and other accumulations which are to be discarded by such junk dealer shall be burned on such premises without the written consent of the chief of the fire department.

"No fire disposing of material accumulated in the yard shall be created less than 30 feet from any building. Where the yard in which such junk business is conducted is so small as to not permit compliance with this restriction, such person so operating such yard is required to build an incinerator within which the fires may be started to dispose of such refuse or other material desired to be destroyed by fire, or cleaned in such manner of grease and other collections."

The section is part of an omnibus ordinance on regulation of junk yards enacted by Council in 1959.

Rather than applying for a burning permit each time he touches off a fire, a junk yard operator may obtain a fire department authorization which is good for six months, the chief pointed out.

Also to be featured at the show will be the U. S. Army "Golden Knights," Cole Palen and his World War I circus; Bevo Howard, former international aerobatic champion; Bell Aircraft Rocket Belt, and numerous ground displays.

Between 40,000 and 50,000 are expected to visit the airport for the show which begins at 12:30 p.m. Gates open at 9 a.m.

Today In Washington

WASHINGTON (AP) — The State Department advises persons swimming to the Soviet Union to be sure to carry the necessary papers.

The question came up because two distance swimming buffs from Jersey City, N.J., Steve Friedland and Ben Schlossberg, want to take a dip in the Bering Strait.

The State Department told them Thursday no diplomatic problems would be raised by their primary goal, a 20-hour swim from Alaska to Little Diomede Island, since Little Diomede is U.S. territory.

But Schlossberg and Friedland said they wanted also to keep going another 20 minutes to Big Diomede Island—Soviet territory. State Department officials said if they press on to this objective they should carry passports with Soviet visas.

WASHINGTON (AP) — Mail service on Saturdays will continue for the time being, the Post Office Department says, despite reports it is considering cutting service back to five days a week to save funds.

"We have not made any announcement and no instructions have been given to curtail service," a department spokesman said Thursday. "Patrons will get their mail as usual on Saturday."

Italian Head Promises To Tax Vatican

ROME (AP) — Caretaker Premier Giovanni Leone, trying to rebuild a majority center-left coalition by fall, is seeking Socialist support with a promise to make the Vatican pay taxes on the dividends it collects in Italy.

The promise helped his Christian Democratic minority government win a vote of confidence Thursday night in the Chamber of Deputies. The vote was 263-252, with 88 abstentions by Socialits and Republicans who could have turned the governmnet out by voting no.

Leone's government is expected to complete its mandate to govern until fall by winning another vote of confidence in the Senate next week.

Taxing the Vatican is something no other Italian government ever dared mention. Leone's proposal would require the Vatican to pay the 30 per cent dividend tax every other Italian investor pays. This would include $8 million to 11 million in arrears dating back to 1963, when the tax took effect.

Relief Supplies Sought For Refugees In Biafra

LAGOS, Nigeria (AP) — The chief of a British mercy mission sought a meeting today with Nigerian government chief Yakubu Gowon as he tried to arrange delivery of more relief supplies to millions of starving war refugees in secessionist Biafra.

Lord Hunt was rebuffed by a Nigerian army commander Thursday when he asked that Port Harcourt, the closest port to the Biafran area, be designated a forwarding point for tons of food piling up outside the war-torn country.

He reported that Col. Benjamin Adekunle, commanding the federal government's forces along the eastern coast reserved the port facilities for military needs. Lord Hunt said the colonel was a single-minded soldier who puts winning the war ahead of the refugee problem.

Adekunle told newsmen he did not favor foreigners entering war areas and "disturbing" the fighting. He was reported angered by Lord Hunt's visit.

Lord Hunt also visited the town of Ikot Ekpene, in a refugee-choked area 50 miles northeast of Port Harcourt. As he was leaving, the town was attacked by rebel Biafran troops, but they were driven back by Nigerian federal forces.

An estimated 4.5 million refugees are crammed into the 10,000 square miles still held by the Biafran government in eastern Nigeria. The Lagos government, which has the territory under blockade, has offered to let relief convoys through a road corridor controlled by federal forces, but the Biafrans refuse to accept this because of the political implications of such Lagos control and because they fear Lagos will poison the food.

Suspect Held In Beating Of District Man

Carl Young, 70, of Grimms Bridge Rd. was beaten up by "burglars" about 1 a. m. today as he attempted to protect his daughter's house while she was away. He is in City Hospital with a cut head and abrasions.

A suspect being questioned this morning at the County Jail in Lisbon said the daughter had asked him to go to her house and get some clothing.

Sheriff Russell J. Van Fossan, Deputy Richard Koffel and Chester Brown, St. Clair Township constable, are investigating the incident, during which Young's shotgun discharged without hitting anyone.

Koffel said Young told him he was at home, heard a car stop out front and saw two men walk by his house to get to his daughter's place at the rear of the property. He said they went inside.

Young said his daughter and her children were living in East Liverpool temporarily, so he went to the road and got the license number of the car. Then, taking his shotgun, he went to the daughter's house. He said someone jumped him from behind when he ordered the men to come out. The gun discharged in the tussle. The men beat him up and fled, taking the gun.

Young called the license number to authorities and Brown and Koffel, in the sheriff's cruiser, spotted the car on Pennsylvania Ave. The driver sped away when he saw the cruiser. The chase lasted nearly to the Pennsylvania state line. Koffel said the driver stopped the car in the middle of the road, jumped out and ran into a woods. The deputy and Brown seized the passenger and took him to the County Jail for questioning. The shotgun was not in the car.

Koffel said Young told him he was at home, heard a car stop out front and saw two men walk by his house to get to his daughter's place at the rear of the property. He said they went inside.

Young said his daughter and her children were living in East Liverpool temporarily, so he went to the road and got the license number of the car. Then, taking his shotgun, he went to the daughter's house. He said someone jumped him from behind when he ordered the men to come out. The gun discharged in the tussle. The men beat him up and fled, taking the gun.

Young called the license number to authorities and Brown and Koffel, in the sheriff's cruiser, spotted the car on Pennsylvania Ave. The driver sped away when he saw the cruiser. The chase lasted nearly to the Pennsylvania state line. Koffel said the driver stopped the car in the middle of the road, jumped out and ran into a woods. The deputy and Brown seized the passenger and took him to the County Jail for questioning. The shotgun was not in the car.

Sponging with a little hydrogen peroxide usually removes any final traces of stain that might be lingering.

No Monster, Barbra Says

By HAL BOYLE

GARRISON, N.Y. (AP) —Success is a bittersweet lollipop.

It has brought fame and acclaim to Barbra Streisand in every major branch of show business. But Brooklyn's onetime homely duckling is annoyed by reports that she is imperious, temperamental and sometimes difficult to work with.

"It annoys me to be judged by people who don't even know me," she remarked during a midday break in location shooting here of scenes from her forthcoming $20-million costume film, "Hello, Dolly!"

"They go by hearsay. It confuses me."

But she is disturbed at the thought the public may get a distorted idea of the kind of person she is.

"I'm afraid they may think I'm some kind of monster," she said, cutting off a small piece of steak to feed her 18-month-old son, Jason Emanuel.

"I don't want people to think I am a terrible human being. I'm not. If I were, it would show through on the screen. You can't really fool anybody on the screen.

"But when you are a star, you are an open target—and the bigger the star the bigger the target.

"You can't win. If you're bitchy and pompous, they don't like you. If you're normal and unassuming, they say you're uninteresting.

"If you ride in a chauffeur-driven limousine, they think you're acting hotsy-totsy—showing off. But if you drive the limousine yourself, they don't like that either. So" — she laughed and made a grimace—"maybe you'd better just walk to work."

Analyzing her own personality, Barbra said:

"You have to be yourself, no matter what. I have always wanted to excel in anything I tried—to be the very best.

"I feel that self-doubt is both my biggest virtue and my worst fault.

"Self-doubt is a virtue because it never lets me assume anything. I feel it's better to be open and vulnerable to hurt in doing one's work.

"But self-doubt can be a fault also. In everyday life people can take advantage of it—and wound you."

A person's likes and dislikes are usually keys to their character. Here are some things Barbra likes:

"Gardenias—Victorian furniture—small, fluffy white dogs—sea smells and country sounds—Oriental philosophy and Chinese food—being in the middle of reading 10 books at a time—soft drinks—all kinds of hats—art nouveau—antiques Indian music, because it has the sound of the soul—early morning—big, soft, floppy beds—working hard and being sometimes lazy, too—muted, subtle colors—people who really care about what they do— and tall, dark, handsome men who have a sense of themselves and feel their own worth."

Barbara has a shorter list of dislikes: "Eggs—hospitals—bright red colors—liquor—the smell of ammonia—vulgarity—flat notes—and people who assume too much familiarity too quickly."

Little Girl, 6, Doesn't Know Parents Fate

WHEATRIDGE, Colo. (AP) — Six-year-old Rae Anne Wood, her legs plastered in casts to mend broken bones and crushed ankles, smiled as she looked at the money she received from an unknown admirer.

"What would you like to buy?" asked her aunt, Miss Michaeline Sheridan of Sacramento, Calif.

"Some presents for my brothers for when I go home," Rae Anne said as she clutched the coins.

But her brothers—Jamie, Stephen, and Gered—are dead. So are her parents, Mr. and Mrs. Roger Wood. They died when their single-engine airplane crashed into the side of a Colorado mountain, just west of Denver late in June. Rae Anne was the only survivor.

"I haven't told her in so many words that her family is dead," Miss Sheridan said. "She wanted those presents for her brothers—just little things. But she was thinking of them."

The girl may never know how her father fought to keep the overloaded, four-passenger craft airborne by flying through valleys rather than over the mountains.

Rae Anne knows the doctors plan to take the casts off her legs today. She also knows she might be on her way home within a week.

"I've told her that her parents and brothers won't be there. That she won't be able to see them anymore," Miss Sheridan said.

No Monster, Barbra Says

By HAL BOYLE

GARRISON, N.Y. (AP) —Success is a bittersweet lollipop.

It has brought fame and acclaim to Barbra Streisand in every major branch of show business. But Brooklyn's onetime homely duckling is annoyed by reports that she is imperious, temperamental and sometimes difficult to work with.

"It annoys me to be judged by people who don't even know me," she remarked during a midday break in location shooting here of scenes from her forthcoming $20-million costume film, "Hello, Dolly!"

"They go by hearsay. It confuses me."

But she is disturbed at the thought the public may get a distorted idea of the kind of person she is.

"I'm afraid they may think I'm some kind of monster," she said, cutting off a small piece of steak to feed her 18-month-old son, Jason Emanuel.

"I don't want people to think I am a terrible human being. I'm not. If I were, it would show through on the screen. You can't really fool anybody on the screen.

"But when you are a star, you are an open target—and the bigger the star the bigger the target.

"You can't win. If you're bitchy and pompous, they don't like you. If you're normal and unassuming, they say you're uninteresting.

"If you ride in a chauffeur-driven limousine, they think you're acting hotsy-totsy—showing off. But if you drive the limousine yourself, they don't like that either. So" — she laughed and made a grimace—"maybe you'd better just walk to work."

Analyzing her own personality, Barbra said:

"You have to be yourself, no matter what. I have always wanted to excel in anything I tried—to be the very best.

"I feel that self-doubt is both my biggest virtue and my worst fault.

"Self-doubt is a virtue because it never lets me assume anything. I feel it's better to be open and vulnerable to hurt in doing one's work.

"But self-doubt can be a fault also. In everyday life people can take advantage of it—and wound you."

A person's likes and dislikes are usually keys to their character. Here are some things Barbra likes:

"Gardenias—Victorian furniture—small, fluffy white dogs—sea smells and country sounds—Oriental philosophy and Chinese food—being in the middle of reading 10 books at a time—soft drinks—all kinds of hats—art nouveau—antiques Indian music, because it has the sound of the soul—early morning—big, soft, floppy beds—working hard and being sometimes lazy, too—muted, subtle colors—people who really care about what they do— and tall, dark, handsome men who have a sense of themselves and feel their own worth."

Barbara has a shorter list of dislikes: "Eggs—hospitals—bright red colors—liquor—the smell of ammonia—vulgarity—flat notes—and people who assume too much familiarity too quickly."

Little Girl, 6, Doesn't Know Parents Fate

WHEATRIDGE, Colo. (AP) — Six-year-old Rae Anne Wood, her legs plastered in casts to mend broken bones and crushed ankles, smiled as she looked at the money she received from an unknown admirer.

"What would you like to buy?" asked her aunt, Miss Michaeline Sheridan of Sacramento, Calif.

"Some presents for my brothers for when I go home," Rae Anne said as she clutched the coins.

But her brothers—Jamie, Stephen, and Gered—are dead. So are her parents, Mr. and Mrs. Roger Wood. They died when their single-engine airplane crashed into the side of a Colorado mountain, just west of Denver late in June. Rae Anne was the only survivor.

"I haven't told her in so many words that her family is dead," Miss Sheridan said. "She wanted those presents for her brothers—just little things. But she was thinking of them."

The girl may never know how her father fought to keep the overloaded, four-passenger craft airborne by flying through valleys rather than over the mountains.

Rae Anne knows the doctors plan to take the casts off her legs today. She also knows she might be on her way home within a week.

"I've told her that her parents and brothers won't be there. That she won't be able to see them anymore," Miss Sheridan said.

Street Patrol Discontinues Its Operation

NORTH BERGEN, N.J. (AP) — A two-day-old citizen street patrol has voluntarily suspended operations, and its leader has been ordered to appear before a grand jury Monday.

Ernest T. Bradow, 26, head of a group called PRE-ARM, People's Rights Enforced Against Riots and Murder, said he received a subpoena Thursday from Bergen County Prosecutor Guy W. Calissi ordering him to appear before the Bergen County grand jury Monday.

Calissi was unavailable for comment on the details of the investigation.

However, Bradow said, "I welcome it. It gives me a chance to talk."

Bradow also said he suspended the group's unarmed auto patrols through 11 North Jersey towns after speaking with the office of Gov. Richard J. Hughes to arrange a meeting.

Bradow said the suspension of patrols was done "as a gesture of good faith so that the talks can be amiable." No date for a meeting has been set.

The tiny holes in saltine crackers are necessary to assure uniform baking of the entire cracker and to prevent "blistering" during the baking process. Without the holes, the center of the cracker would be unbaked while the edges and "blisters" were burned. The holes are made by little pins after the dough sheet is formed.

Out Of The Air

By HAL HUMPHREY

Patterson Takes Swing At Films

Old prize fighters don't fade away. They turn up at CBS as actors. Archie Moore, Sugar Ray Robinson and Floyd Patterson are all three appearing in different series. Archie and Sugar Ray recently filmed "Family Affair" and "Mission: Impossible," respectively. Floyd begins this week in a "Wild, Wild West" episode.

Hal Humphrey

Maybe it's a bit unfair to call Floyd an "old prize fighter." He's 33 and is set to fight Jimmy Ellis in Stockholm on Sept. 14 for the World Boxing Association heavyweight title. Between takes at the CBS studio where "Wild, Wild West" is shot, Floyd trains with his sparring partner.

"They already had a ring set up out here in Hollywood," says Floyd. "Bob Conrad, the star of the show, has it for himself. He likes to box, and he's the first actor I've seen who throws punches in combinations."

-:-

ARCHIE MOORE and Sugar Ray Robinson have acted before, but this is Floyd's Thespian debut. He plays a dirt farmer in Oklahoma who with other farmers is being victimized by land-grabbers. He likes the role because, Floyd, says he's always wanted to be a farmer.

"I like the country and the way farmers dress, the boots and everything — I've always said I'd like to own a ranch," Floyd says.

He's living on a small 30-acre spread in upstate New York now, but doesn't consider this farming. At the moment he's quite serious about becoming an actor, however. He has an agent and has taken a few acting lessons.

"I'm having trouble though, picturing myself as an actor. The lessons did give me more confidence, so maybe it'll work."

-:-

DICK WITT, Floyd's agent, predicts his client will have no trouble at all as an actor.

"I got interested in Floyd when I heard him on an interview," says Dick. "I felt he had a sensitivity, which I've found he has."

The "Wild, Wild West" part came about because Dick knew Bob Conrad personally and approached him on Floyd's doing a show. Michael Dann, CBS program head not long ago sent out an edict to all CBS producers to hire more Negroes and this probably didn't hurt when getting Floyd the part.

Bernie Hamilton, another actor, and Conrad are both helping Floyd in this initial try. Amusingly, in the big fight scene where Floyd and Conrad take on about seven villians, the director is using a double for Floyd.

-:-

"HE SWINGS too straight," explains the director, "and it doesn't look as good as the round-house swings used in films."

"I'd probably be better than the stuntman when it comes to going down, tough," cracks Floyd, who lost his title the second time by a blow in the first round from Sonny Liston.

Win, lose or draw in his upcoming fight, Floyd will pursue his acting career, agent Vitt insists. Vitt claims he has a few nibbles on movie parts for Floyd and hopes to land him one of those after the bout in Stockholm.

Floyd has a lot of fans in Sweden, even though he won back his title by beating Sweden's Ingemar Johansson in their second fight.

"I got more mail from Sweden after our first fight than anywhere else, and after winning over Ingemar I visited there and got a wonderful welcome," Floyd recalls.

-:-

IF HIS ROLE in "Wild, Wild West" doesn't catapult him into an acting career, Floyd won't be as bad off as some of his colleagues in the fight business.

Youth Jailed After Chase

NEW CUMBERLAND — An 18-year-old New Cumberland youth is being held in Brooke County jail today in lieu of $5,000 bond on a charge of grand larceny.

Thomas J. Reitter of New Cumberland Heights was apprehended by Chief of Police William Webster at 5:10 p.m. Thursday following a high speed automobile chase and a two-hour chase on foot.

Chief Webster saw the youth driving in New Cumberland and, knowing he did not have a driver's license, began the chase.

Reitter then parked the car in New Cumberland and took off on foot. Webster had the license plate number checked and discovered the auto belonged to Donald E. Schea of Beaver and had been stolen early Thursday in Weirton. Reitter finally was apprehended at his home.

Reitter already was under a $500 peace bond on a charge of "threat to bodily injure" on April 26. He was indicated by the last term of grand jury on two charges of destruction of property when he and a juvenile went through New Cumberland breaking windows in churches, businesses and private homes.

A hearing has been scheduled for July 17 before Squire John D. Herron.

Patrolmen Halt Demonstration

COLUMBUS, Ohio (AP) — Twenty Ohio Highway Patrolmen were called to Ohio State University president Novice Fawcett's house Thursday night when about 125 chanting Negroes marched on the residence.

The youths were protesting Tuesday's dismissal of eight OSU Negro students for their part in last April's takeover of the campus administration building.

Four campus policemen blocked the entrance to the house as the youths approached. The demonstrators broke side mirrors and radio aerials off the campus cruisers and let air out of three tires, campus police said.

The crowd dispersed a short time later as two 10-man squads of patrolmen in riot gear marched up the drive. The patrol surrounded the house for a while and were removed late Thursday night.

Plan For Marina On Creek Awaits Further Studies

OHIOVILLE — Council Thursday night referred to its recreation committee reported plans for a marina proposed for Beaver Creek near Route 68 as part of the overall enlargement of Beaver Creek State Park.

Mayor Elmer Gifford reported in his consultations with the U. S. Corps of Engineers at Pittsburgh, plans for the marina on the west side of the creek upstream from the Smiths Ferry Bridge were revealed.

These are included in the contemplated Penn - Ohio Recreation Park which would extend from the current Ohio Beaver Creek Steate Park, he said.

The Beaver County Planning Commission has mapped tentative arrangements for the park facility. Some 25 Ohioville property owners have been advised their land will be appraised in line with the project.

The recreation committee is to meet with representatives of the county planners to discuss further the marina proposal.

Out Of The Air

Patterson Takes Swing At Films

Old prize fighters don't fade away. They turn up at CBS as actors. Archie Moore, Sugar Ray Robinson and Floyd Patterson are all three appearing in different series. Archie and Sugar Ray recently filmed "Family Affair" and "Mission: Impossible," respectively. Floyd begins this week in a "Wild, Wild West" episode.

Hal Humphrey

Maybe it's a bit unfair to call Floyd an "old prize fighter." He's 33 and is set to fight Jimmy Ellis in Stockholm on Sept. 14 for the World Boxing Association heavyweight title. Between takes at the CBS studio where "Wild, Wild West" is shot, Floyd trains with his sparring partner.

"They already had a ring set up out here in Hollywood," says Floyd. "Bob Conrad, the star of the show, has it for himself. He likes to box, and he's the first actor I've seen who throws punches in combinations."

-:-

ARCHIE MOORE and Sugar Ray Robinson have acted before, but this is Floyd's Thespian debut. He plays a dirt farmer in Oklahoma who with other farmers is being victimized by land-grabbers. He likes the role because, Floyd, says he's always wanted to be a farmer.

"I like the country and the way farmers dress, the boots and everything — I've always said I'd like to own a ranch," Floyd says.

He's living on a small 30-acre spread in upstate New York now, but doesn't consider this farming. At the moment he's quite serious about becoming an actor, however. He has an agent and has taken a few acting lessons.

"I'm having trouble though, picturing myself as an actor. The lessons did give me more confidence, so maybe it'll work."

-:-

DICK WITT, Floyd's agent, predicts his client will have no trouble at all as an actor.

"I got interested in Floyd when I heard him on an interview," says Dick. "I felt he had a sensitivity, which I've found he has."

The "Wild, Wild West" part came about because Dick knew Bob Conrad personally and approached him on Floyd's doing a show. Michael Dann, CBS program head not long ago sent out an edict to all CBS producers to hire more Negroes and this probably didn't hurt when getting Floyd the part.

Bernie Hamilton, another actor, and Conrad are both helping Floyd in this initial try. Amusingly, in the big fight scene where Floyd and Conrad take on about seven villians, the director is using a double for Floyd.

-:-

"HE SWINGS too straight," explains the director, "and it doesn't look as good as the round-house swings used in films."

"I'd probably be better than the stuntman when it comes to going down, tough," cracks Floyd, who lost his title the second time by a blow in the first round from Sonny Liston.

Win, lose or draw in his upcoming fight, Floyd will pursue his acting career, agent Vitt insists. Vitt claims he has a few nibbles on movie parts for Floyd and hopes to land him one of those after the bout in Stockholm.

Floyd has a lot of fans in Sweden, even though he won back his title by beating Sweden's Ingemar Johansson in their second fight.

"I got more mail from Sweden after our first fight than anywhere else, and after winning over Ingemar I visited there and got a wonderful welcome," Floyd recalls.

-:-

IF HIS ROLE in "Wild, Wild West" doesn't catapult him into an acting career, Floyd won't be as bad off as some of his colleagues in the fight business.

Youth Jailed After Chase

NEW CUMBERLAND — An 18-year-old New Cumberland youth is being held in Brooke County jail today in lieu of $5,000 bond on a charge of grand larceny.

Thomas J. Reitter of New Cumberland Heights was apprehended by Chief of Police William Webster at 5:10 p.m. Thursday following a high speed automobile chase and a two-hour chase on foot.

Chief Webster saw the youth driving in New Cumberland and, knowing he did not have a driver's license, began the chase.

Reitter then parked the car in New Cumberland and took off on foot. Webster had the license plate number checked and discovered the auto belonged to Donald E. Schea of Beaver and had been stolen early Thursday in Weirton. Reitter finally was apprehended at his home.

Reitter already was under a $500 peace bond on a charge of "threat to bodily injure" on April 26. He was indicated by the last term of grand jury on two charges of destruction of property when he and a juvenile went through New Cumberland breaking windows in churches, businesses and private homes.

A hearing has been scheduled for July 17 before Squire John D. Herron.

Patrolmen Halt Demonstration

COLUMBUS, Ohio (AP) — Twenty Ohio Highway Patrolmen were called to Ohio State University president Novice Fawcett's house Thursday night when about 125 chanting Negroes marched on the residence.

The youths were protesting Tuesday's dismissal of eight OSU Negro students for their part in last April's takeover of the campus administration building.

Four campus policemen blocked the entrance to the house as the youths approached. The demonstrators broke side mirrors and radio aerials off the campus cruisers and let air out of three tires, campus police said.

The crowd dispersed a short time later as two 10-man squads of patrolmen in riot gear marched up the drive. The patrol surrounded the house for a while and were removed late Thursday night.

Plan For Marina On Creek Awaits Further Studies

OHIOVILLE — Council Thursday night referred to its recreation committee reported plans for a marina proposed for Beaver Creek near Route 68 as part of the overall enlargement of Beaver Creek State Park.

Mayor Elmer Gifford reported in his consultations with the U. S. Corps of Engineers at Pittsburgh, plans for the marina on the west side of the creek upstream from the Smiths Ferry Bridge were revealed.

These are included in the contemplated Penn - Ohio Recreation Park which would extend from the current Ohio Beaver Creek Steate Park, he said.

The Beaver County Planning Commission has mapped tentative arrangements for the park facility. Some 25 Ohioville property owners have been advised their land will be appraised in line with the project.

The recreation committee is to meet with representatives of the county planners to discuss further the marina proposal.

Flood Victims 'Digging Out' In England

LONDON (AP) — Vacationers were warned to stay out of England's flood-stricken West Country today after angry villagers clashed with tourists they took for sightseers.

"Flood victims are in no mood for visitors," said a police spokesman in Somerset. "There is a lot of work to do. Sightseers should remember how they would feel in similar circumstances."

Ruined bridges left only one main road open to the resorts of Devon and Cornwall, on England's southwest toe. Thousands on vacationers left for home early, causing some of the worst traffic jams seen in the area as they tried to make their way on secondary roads. The army lifted troops by air to make emergency repairs and help clear the destruction.

At least seven persons died in the raging waters fed by two days of torrential rain. The floods were receding in the West Country, but in the Midlands, the Trent and the Nene were rising, threatening Leicester and Northampton.

Thousands of acres were under water around Leicester. Police and troops worked to reinforce the banks of the Nene, flowing through low-lying farmland.

On the east coast, the counties of Norfolk, Essex and Kent reported heavy crop damage after winds gusting up to 60 miles an hour lashed them.

No Progress Made In Telephone Strike

CHICAGO (AP) — An Illinois Bell Telephone Co. spokesman says that despite an offer by striking electrical workers to make concessions on wage demands, "they haven't budged from their original offer."

The strike by 11,800 members of the International Brotherhood of Electrical Workers, now in its 65th day, has delayed installation of communications equipment for the Democratic National Convention.

Reports have persisted that the convention might be held elsewhere if the strike is not settled. Democratic officials have denied this.

Girls Spend Spooky Night In Mansion

ORANGE, N.J. (AP) — Three young Newark girls are safe at home with a story to tell their friends about a spine-chilling night in a spooky mansion.

The girls, missing for nearly 18 hours, were found walking along a street Thursday afternoon after playing and sleeping overnight in a deserted 14-room house.

"We were operating on Frankenstein there," said 5-year-old Barbara Ann Gatley, who had been sought since 7 p.m. Wednesday along with her sister, 7-year-old Colleen, and a playmate, 9-year-old Lillianna Bace.

The girls, object of a police search in five communities, were tired and hungry, but none the worse for their ordeal.

The children were found about a mile from their homes by an aunt of the sisters, Mary Louise Desens of Orange.

The girls apparently wandered from home while chasing some other children. When they realized how far they had gotten, they entered the mansion.

Girls Spend Spooky Night In Mansion

ORANGE, N.J. (AP) — Three young Newark girls are safe at home with a story to tell their friends about a spine-chilling night in a spooky mansion.

The girls, missing for nearly 18 hours, were found walking along a street Thursday afternoon after playing and sleeping overnight in a deserted 14-room house.

"We were operating on Frankenstein there," said 5-year-old Barbara Ann Gatley, who had been sought since 7 p.m. Wednesday along with her sister, 7-year-old Colleen, and a playmate, 9-year-old Lillianna Bace.

The girls, object of a police search in five communities, were tired and hungry, but none the worse for their ordeal.

The children were found about a mile from their homes by an aunt of the sisters, Mary Louise Desens of Orange.

The girls apparently wandered from home while chasing some other children. When they realized how far they had gotten, they entered the mansion.

Add diced raw celery to canned peas and carrots and heat; the celery gives good texture contrast. This combination is also excellent served with a cream sauce. The liquid from the peas and carrots may be substituted for one-third of the milk in the cream sauce.

It's Hard To 'Bear'

To Stew, Or Not To Stew

MCCLEAR, Wash. (AP) — Folks in this western Washington forest community are preparing for a lot of fun—and wrangling—at the annual McCleary Bear Festival a week from Saturday.

Oh, they'll have the usual parade, a fiddle contest and a loggers' show where husky lumberjacks show how fast they can cut great trees in half, and stuff like that.

But they always top that off with a big bear stew—and that's where the controversy always comes in.

The stew, said to be mighty tasty, is the idea of the S.O.T.S —a Save Our Tree group that wants to keep bears to a bare minimum because bears eat tree bark and ruin a lot of valuable timber.

Then there's a countergroup called the S.O.B.S. for Save Our Bears. The S.O.B.S object to the big bear stew business something fierce, and they say they'll add a protest march to the festival this year.

"You might say we're going to stage a bru-in," says Windsor Olson, S.O.B. organizer from the big city of Seattle where they don't have as many trees and practically no bears.

Olson, trying to match advance reports on the big bear stew, has been going around proposing this concoction:

"Mix together eight timber barons, 17 S.O.T.S, three big-game hunters, one outdoor editor, one forest protection association and one damage control program.

"Add 800 pounds of sap and simmer three months. Stir occasionally with an American Rifle Association big stick. When thoroughly done, export to Japan."

Olson says there aren't too many bears left. And if the bear population has to be regulated, he adds, "I wouldn't be against capturing them and having them sent somewhere."

But the McCleary lumberjacks have warned the S.O.B.S that they might come down with a severe case of logger's smallpox if they get too meddlesome.

Symptons of that disease, mountain folk say, are a lot of small holes in the skin, caused by those steel spikes that stick out of the soles of a timberman's boots.

So, who knows, maybe the S.O.T.S and the S.O.B.S will have such a rollicking time that somebody will have to send out and S.O.S.

Ohioville's Council Airs Borough Building Plans

OHIOVILLE — Plans for a new all - purpose Ohioville Borough Building — housing a post office, borough offices, fire trucks and road equipment — were discussed further by Council Thursday night.

Planned retirement of Mrs. Ruth Blackmore, postmistress at Smiths Ferry — one of five post offices serving Ohioville—brings new incentive for a consolidated community building, it was explained.

—:—

THREE parcels of land have been designated as possible sites for the proposed structure, according to Councilmen George Daniels Sr., Michael Hohan and Andrew (Pat) Daniels, the building committee.

The tracts are 2 acres, 6 acres and 10 acres. An executive committee meeting will be held soon to determine the amount of land required.

Retirement of Mrs. Blackmore at the end of the year will mean closing of the present post office at Smiths Ferry, which is in her home.

Mrs. Emily Carroll, borough secretary, was authorized to suggest to Rep. Frank Clark of the 25th Congressional District the post office be relocated temporarily in a building to be offered by the borough until a new office can be erected or be included in the proposed new borough building.

Last winter the Borough submitted a petition of 500 names to Rep. Clark, requesting that an Ohioville post office be reopened since the borough is now served by five post offices.

An Ohioville post office was in operation many years ago.

Council reported there has been no response from Clark.

—:—

MAYOR Elmer R. Gifford presided. His June police report showed 42 complaints investigated and one arrest for dumping refuse on private property.

Mrs. Carroll announced she is accepting applications for auxiliary police. Applicants must be residents of Ohioville Borough, she pointed out.

Ronald Speerhas, road foreman, announced that all dirt roads in the borough are being oiled.

Council approved the annual $1,300 donation to the Ohioville Volunteer Fire Department for equipment.

Mrs. Carroll was authorized to pay $9,000 on the principal on a note at the Midland branch of the Beaver Trust Co. A first payment of $6,000 was made last year on the $17,891 five-year note. A balance of $2,891 remains to be paid next year.

Gifford reported grading has started on a playground by the old pump house on Knollwood Dr. in Meadowbrook Estates.

Bills totaling $11,156 were paid. Council will meet Aug. 1 at 8 p. m.

Driver 'Satisfactory' After Hancock Crash

A 48-year-old New Cumberland driver is "satisfactory" today at City Hospital after his compact turned over in a field off the Congo Rd., near Newell, Thursday afternoon.

Dorman Adams of 1107 Chestnut St. suffered contusions of the right eye, abrasions of the forehead and abrasions of the lip and nose. Adams was pinned in the car when it came to rest in a field and was freed by Hancock County sheriff's deputies.

He was traveling south when the vehicle went off the berm and turned over.

Adams was cited by deputies for reckless operation.

Another accident Thursday on the Congo Rd. occurred at 1:30 p.m. when cars driven by Walter Juszczak, 19, of 907 Grant St. and Gary Allen Miller, 16, of New Cumberland collided.

Both drivers told deputies they did not see each other because of overhanging tree limbs. No injuries were reported and no citations issued.

Chester To Observe 'Family Reunion Day'

In recognition of the cohesive role played by the family in today's society, Aug. 11 has been named "Family Reunion Day" at Chester.

The proclamation was issued by Mayor Harold Ash in conjunction with programs by Kiwanis International and Freedoms Foundation at Valley Forge to dramatize the family and its role.

Families are requested to set aside the day for picnics, reunions, dinners and similar activities.

Losses High In 2 Blazes At Cincinnati

CINCINNATI (AP) — Fires hit a girls school and a building loaded with bales of wool late Thursday inflicting loss mounting into the tens of thousands of dollars.

Lightning was believed to have sparked a $50,000 blaze at J. Cohen Wool Stock Co. A fire unit returning from another call saw a bolt of lightning strike the four-story brick building and almost immediately a column of smoke rose from the structure.

About 100 firemen battled the blaze for two hours before getting it under control.

Arson investigators were probing the ruins of the wooden frame science and library building of the Hillsdale Lotspeich school on Red Bank Road in eastern Cincinnati which burned earlier.

Fifty firemen were called to the scene of the $8,000 fire, but the blaze had spread throughout the building and minutes later the roof collapsed.

Continuances were granted Larry Hogue of Maple Hill and Gene Goddard of West End, both cited for following a police car.

Loan Firm's Suit Seeks To Enjoin Its Ex-Manager

A loan company here filed a lawsuit in Lisbon Wednesday against its former manager and another loan company for which he went to work in the same capacity last month.

The City Loan & Savings Co. of 118 W. 5th St. asks Common Pleas Court to enjoin Robert H. Arnold of 1982 Lisbon St. for a one - year period from working for the Ohio Valley Loan Co. at 104 E. 6th St., or any other firm or corporation in competition with the plaintiff within a radius of 25 miles of the City Loan's East Liverpool office.

City Loan also asks that Ohio Valley Loan, which opened an East Liverpool office last month and engaged Arnold as "chief operator," be restrained from employing him within a radius of 25 miles of the plaintiff's office.

In addition, the petition seeks to restrain Arnold from furnishing, and Ohio Valley Loan from utilizing, any confidential information which he acquired during employment with City Loan.

City Loan's petition states Arnold had been with the company since 1951 in offices at Mansfield, Hamilton, Cadiz, Wellsville and East Liverpool.

The plaintiff says Arnold signed a written contract in 1958 that if he left employment with City Loan he would not, for a period of one year thereafter, enter into work in competition with City Loan within a radius of 25 miles of any of its offices.

City Loan said it called Arnold's attention to the contract when he terminated employment early last month.

On Assassination

Garrison Claims He Has Additional 'Information'

NEW ORLEANS (AP) — Dist. Atty. Jim Garrison said that his office has exchanged information with the intelligence agency of a foreign country "That successfully penetrated the assassination operation" against President John F. Kennedy, the Times-Picayune reported today.

According to the newspaper report, Garrison said that "the great amount of detailed information" he received from the foreign country verifies his statements that Kennedy was assassinated "by elements of the Central Intelligence Agency."

Garrison declined to identify the country but he did say that it is in Europe and is "a foreign power that militarily is on friendly terms with the United States," the newspaper reported.

The district attorney said, according to the newspaper report that he was making the disclosure about the contact with the foreign intelligence agency because of indications of another "CIA-inspired" campaign in magazines to discredit his investigation.

The paper said Garrison referred specifically to an article in the New Yorker magazine dated July 13. The article by Edward Jay Epstein, a critic of the Warren Commission, attacks Garrison's investigation of the assassination of Kennedy in Dallas in November 1963.

Epstein said in the 25,000-word piece, "In the years I have been studying Garrison's investigation and have had access to his office, the only evidence I have seen or heard about that could connect Clay Shaw with the assassination has been fraudulent—some devised by Garrison himself and some cynically called from criminals or the emotionally unstable."

Penalties Levied In Driving Cases

LISBON — Two East Liverpool youths lost driving privileges for 60 days each following juvenile traffic hearings this week at the Courthouse.

They were Daniel B. Kristy, 16, of Columbia Ave.. cited for drinking and being involved in an accident, and Donald L. Broad, 17, of 1104 Riverview St., charged with drinking and reckless operation.

Also suspended were the licenses of George B. Miller, 18, and William E. Kraft, 17, of 233 Center St., East Liverpool, passing on right, seven days. Miller was 17 when cited.

Four drivers were fined:

Carol Ann Keener, 14, of 351 Ogden St., East Liverpool, no operator's license, $25; Edward F. Huston, 17, Negley RD 1, failure to stop in an assured clear distance, $10; James S. Ward, 18, East Palestine, failure to wear helmet and eye protector on motorcycle, $5, and William J. Michaels, 18, Salem RD 3, no baffle plates in muffler, $5.

DISLIKE FOR MILK

Q. Is it possible to obtain a balanced diet without milk?

A. The only nutrients that present a problem when milk is eliminated from the diet are calcium and vitamin D. Calcium is present in leafy vegetables and, of course, can be taken in the form of tablets. Vitamin D is a little more difficult to obtain, especially in the case of infants. If fortified milk is not included in the diet of infants, vitamin D supplements should be used.

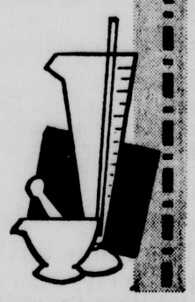

INHERITANCE OF LONG LIFE

Q. To what extent does heredity play a role in longevity?

A. Heredity seems to play an important role. Some people seem programmed through heredity to reach old age. They may be set apart from the average by some type of biological eliteness. Such people simply do not succumb to the leading killer diseases which beset others of their age group.

Loan Firm's Suit Seeks To Enjoin Its Ex-Manager

A loan company here filed a lawsuit in Lisbon Wednesday against its former manager and another loan company for which he went to work in the same capacity last month.

The City Loan & Savings Co. of 118 W. 5th St. asks Common Pleas Court to enjoin Robert H. Arnold of 1982 Lisbon St. for a one - year period from working for the Ohio Valley Loan Co. at 104 E. 6th St., or any other firm or corporation in competition with the plaintiff within a radius of 25 miles of the City Loan's East Liverpool office.

City Loan also asks that Ohio Valley Loan, which opened an East Liverpool office last month and engaged Arnold as "chief operator," be restrained from employing him within a radius of 25 miles of the plaintiff's office.

In addition, the petition seeks to restrain Arnold from furnishing, and Ohio Valley Loan from utilizing, any confidential information which he acquired during employment with City Loan.

City Loan's petition states Arnold had been with the company since 1951 in offices at Mansfield, Hamilton, Cadiz, Wellsville and East Liverpool.

The plaintiff says Arnold signed a written contract in 1958 that if he left employment with City Loan he would not, for a period of one year thereafter, enter into work in competition with City Loan within a radius of 25 miles of any of its offices.

City Loan said it called Arnold's attention to the contract when he terminated employment early last month.

On Assassination

Garrison Claims He Has Additional 'Information'

NEW ORLEANS (AP) — Dist. Atty. Jim Garrison said that his office has exchanged information with the intelligence agency of a foreign country "That successfully penetrated the assassination operation" against President John F. Kennedy, the Times-Picayune reported today.

According to the newspaper report, Garrison said that "the great amount of detailed information" he received from the foreign country verifies his statements that Kennedy was assassinated "by elements of the Central Intelligence Agency."

Garrison declined to identify the country but he did say that it is in Europe and is "a foreign power that militarily is on friendly terms with the United States," the newspaper reported.

The district attorney said, according to the newspaper report that he was making the disclosure about the contact with the foreign intelligence agency because of indications of another "CIA-inspired" campaign in magazines to discredit his investigation.

The paper said Garrison referred specifically to an article in the New Yorker magazine dated July 13. The article by Edward Jay Epstein, a critic of the Warren Commission, attacks Garrison's investigation of the assassination of Kennedy in Dallas in November 1963.

Epstein said in the 25,000-word piece, "In the years I have been studying Garrison's investigation and have had access to his office, the only evidence I have seen or heard about that could connect Clay Shaw with the assassination has been fraudulent—some devised by Garrison himself and some cynically called from criminals or the emotionally unstable."

DISLIKE FOR MILK

Q. Is it possible to obtain a balanced diet without milk?

A. The only nutrients that present a problem when milk is eliminated from the diet are calcium and vitamin D. Calcium is present in leafy vegetables and, of course, can be taken in the form of tablets. Vitamin D is a little more difficult to obtain, especially in the case of infants. If fortified milk is not included in the diet of infants, vitamin D supplements should be used.

INHERITANCE OF LONG LIFE

Q. To what extent does heredity play a role in longevity?

A. Heredity seems to play an important role. Some people seem programmed through heredity to reach old age. They may be set apart from the average by some type of biological eliteness. Such people simply do not succumb to the leading killer diseases which beset others of their age group.

ANN LANDERS

Sickness--In His Head?

By Ann Landers

Dear Ann Landers: My husband retired two years ago at age 60. Mike was an avid golfer and looked forward to retirement so he could play as much golf as he wanted. But soon after his 60th birthday he developed a little arthritis in one arm. The doctor said he could still play golf but Mike refused to try.

A few months later he suffered a slight stroke. For two years he's done nothing but look at TV, drink and feel sorry for himself.

My once good life is now hell. Mike wants me to wait on him hand and foot. If he were totally incapacitated I'd gladly do it. But he could do many things for himself if he tried.

When I return from a bridge game he accuses me of being with men. He threatens to kill himself and "get out of my way." I sometimes think he's resentful that I have good health and he does not.

What should I do? If I stay home day and night I'll go crazy. Before his illness Mike was never an arguer. Now he picks a fight and keeps it going for hours. I need help.—N.Y. DILEMMA.

-:-

Dear N.Y.: Have you discussed Mike's behavioral changes with his doctor? If you haven't, you should.

Sometimes when an active man retires he becomes depressed and cantankerous but what you describe suggests that "slight stroke" may have produced a little brain damage. Make an appointment with Mike's doctor today. It could change your thinking considerably.

Losing Battle

Dear Ann: You could do a lot of good in this world if you weren't so doggoned rock-headed.

In the last year you printed letters from three women who sounded great. I wrote and asked for their names and addresses and got three flat turndowns. Why?

Don't you know there are a lot of lonesome people in this world who can't afford to go to nice places and meet high-class folks? These people need help. A column where readers tell about themselves is a perfect place to make connections.

I've been married four times. (The first two don't count because I was too young to know better). I've finally learned how to treat a woman now that I'm older. Life would be rosy if I had a lovely wife by my side.

Why don't you be a good egg and put me in touch with "Blues in the Night," "Ready and Able" or "Lonely Louise"? — MUSCLES MIKE.

-:-

Dear Mike: You say you're a four-time loser and now if you had a good woman by your side life would be rosy. That's some recommendation, Buddy Boy. Find "Rosy" on your own.

Strangers can be dangerous and, oftentimes, the nicer they seem the nuttier they are. I want no part of friend-finding.

Driver Training

Dear Ann: I'm 16. I have a driver's license and I'm a very good driver but my parents will not allow me to drive by myself. What good is a driver's license if I can't drive without a chaperone?

My dad says the only reason they let me get a license is so I'd get off their backs.

I keep telling them I need the experience of driving alone but they won't listen. Last week I drove the family six times. If they didn't think I was a safe driver they would not have driven with me, would they?

Please give me some help.—C.H.

-:-

Dear C.H.:Be patient, Chicken, your time will come. Continue to display competence at the wheel and stop begging. When you beg you sound like a small child and small children should not be driving cars.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

WASHINGTON (AP) — President Johnson slipped and took a spill Thursday night after he had reviewed a Marine Corps parade.

The parade was staged at the Marine Barracks during the yearly gathering of Marine Corps generals from around the world.

Johnson went to the home of the barracks' commandant to receive the generals after the ceremony.

Coming down the steep steps from the house later, Johnson was waving to people gathered outside when he slipped on the bottom step and fell to one knee.

Generals and Secret Service agents rushed to his assistance. He quickly jumped up, brushed back his slightly tousled hair and got into his limosine.

"It was that last step," he said as he got in the car. He waved and smiled as the limousine drove off.

East End Mishap Damages Autos; Car Rams Motel

Two cars were damaged in an East End collision Thursday and another auto hit the wall of an E. 3rd St. motel after it was abandoned in an apparent theft attempt, police reported.

Ernest L. Gibson, 42, of 2018 Clark Ave., Wellsville, told officers his 1960 sedan was involved in a collision with another auto on Pennsylvania Ave. 300 feet east of Boyce St. Gibson said he was driving east when the other auto pulled from the parking lot at a tavern.

The other driver alighted from his car, asked if anyone was injured and then returned to his auto and proceeded east on Pennsylvania Ave., Gibson said. The front bumper and right front fender of his car were damaged.

The Heritage House Motel on E. 3rd St. was hit about 2 p.m. by a 1968 two-door sedan owned by the Hertz Rental Corp. at Pittsburgh, damaging the auto's left rear fender and trunk.

HINTS FROM HELOISE

Quick, Easy Sleeping Bag

DEAR HELOISE: Here's how I made temporary sleeping bags for my two boys.

I folded old shower curtains in half lengthwise, putting the top edge at the bottom. This gave a double row of metal - reinforced holes which I laced together with heavy string.

Heloise

The open long side I closed by making eyelets and lacing is also with the heavy string. This makes a large plastic envelope closed on three sides to put the folded blankets in.

The plastic on the bottom keeps out ground moisture and the plastic on the top holds in body heat. (Be sure to leave enough space at the top of the laced long side to make getting in easy.)

If you don't have an old shower curtain, a heavy, quilted plastic closet garment bag is even easier.

Just cut the top section on three sides leaving it attached along one wider side. (This flap serves as a place to lay a pillow without putting it directly on the ground.) Then open the side zipper and just slide in the blankets.

These temporary bags are great when the children just want to camp out in the back yard for a night or two. And they cost you nothing.

CHARLOTTE MINNETTE.

You're a peach to share that one with us, Charlotte. Thanks oodles.

DEAR FOLKS: While at the fruit market recently, one of the fruit-growers told me how to pick a good watermelon.

A number one watermelon is smooth and never rough. He showed me some rough melons and he was right. I had never noticed that before.

A good melon is never larger on one end than the other. And neither is it yellow on one end and green on the other. The whole outside of the melon should be the same green shade.

So use these tips and see if it doesn't improve on your "thump-and-feel" method.

HELOISE.

LETTER OF LAUGHTER

DEAR HELOISE: Our little boys love to throw sand and dirt in each others hair when playing in the sandpile.

Well, finally I've hit on an easy removal method.

I just use the vacuum cleaner with the round brush attachment and it sucks all the grit off while the hair is still dry.

You'll still have to wash their heads, but you're not grinding the dirt in their scalps or all over the house 'til the job gets done.

Besides, they think it's fun to have their head vacuumed!

JUDY.

DEAR HELOISE: When we go on vacation with the children, we take along a zippered plastic pillow cover to put the soiled clothes in. I put opened cakes of soap in the bag to keep it fresh smelling.

For driving snacks, we find that carrot and celery strips are satisfying and certainly much better for the children than candy or cookies. We soak the vegetables in ice cubes overnight, drain them in the morning, and put them in a plastic container.

DONNA WOOD.

DEAR HELOISE: I was looking through my cabinet for a small deep pan to bake a peach cobbler in when I spied an old aluminum ice tray that I did not use in the refrigerator any longer.

So I used it and it was just the right size and depth. Worked great for me.

RUBY DAVIS.

-:-

Don't use your GOOD trays for this, folks. The heat plus the hot water and soap you wash 'em with will remove the film from your tray and the ice will stick. But as Ruby said, it's great for DISCARDED trays.

I folded old shower curtains in half lengthwise, putting the top edge at the bottom. This gave a double row of metal - reinforced holes which I laced together with heavy string.

Heloise

The open long side I closed by making eyelets and lacing is also with the heavy string. This makes a large plastic envelope closed on three sides to put the folded blankets in.

The plastic on the bottom keeps out ground moisture and the plastic on the top holds in body heat. (Be sure to leave enough space at the top of the laced long side to make getting in easy.)

If you don't have an old shower curtain, a heavy, quilted plastic closet garment bag is even easier.

Just cut the top section on three sides leaving it attached along one wider side. (This flap serves as a place to lay a pillow without putting it directly on the ground.) Then open the side zipper and just slide in the blankets.

These temporary bags are great when the children just want to camp out in the back yard for a night or two. And they cost you nothing.

You're a peach to share that one with us, Charlotte. Thanks oodles.

DEAR FOLKS: While at the fruit market recently, one of the fruit-growers told me how to pick a good watermelon.

A number one watermelon is smooth and never rough. He showed me some rough melons and he was right. I had never noticed that before.

A good melon is never larger on one end than the other. And neither is it yellow on one end and green on the other. The whole outside of the melon should be the same green shade.

So use these tips and see if it doesn't improve on your "thump-and-feel" method.

LETTER OF LAUGHTER

DEAR HELOISE: Our little boys love to throw sand and dirt in each others hair when playing in the sandpile.

Well, finally I've hit on an easy removal method.

I just use the vacuum cleaner with the round brush attachment and it sucks all the grit off while the hair is still dry.

You'll still have to wash their heads, but you're not grinding the dirt in their scalps or all over the house 'til the job gets done.

Besides, they think it's fun to have their head vacuumed!

JUDY.

DEAR HELOISE: When we go on vacation with the children, we take along a zippered plastic pillow cover to put the soiled clothes in. I put opened cakes of soap in the bag to keep it fresh smelling.

For driving snacks, we find that carrot and celery strips are satisfying and certainly much better for the children than candy or cookies. We soak the vegetables in ice cubes overnight, drain them in the morning, and put them in a plastic container.

DONNA WOOD.

DEAR HELOISE: I was looking through my cabinet for a small deep pan to bake a peach cobbler in when I spied an old aluminum ice tray that I did not use in the refrigerator any longer.

So I used it and it was just the right size and depth. Worked great for me.

RUBY DAVIS.

-:-

Don't use your GOOD trays for this, folks. The heat plus the hot water and soap you wash 'em with will remove the film from your tray and the ice will stick. But as Ruby said, it's great for DISCARDED trays.

Ask a kid in the United States who the greatest athlete in the world is and you'll get several answers: Willie Mays, Bob Gibson, Roberto Clemente, Johnny Unitas, Wilt Chamberlain or several others.

Ask a kid in Canada the same question and he'll say Bobby Hull. But ask a kid (or an adult) anywhere else in the world and the answer will be: Pele.

Pele is acknowledged as the best player in the world's most popular game, soccer (known as football everywhere except in the U.S.). He makes more money than even Chamberlain, drawing down an estimated $800,000 a year, which can buy a lot of coffee in his native Brazil.

PELE, WHOSE full name is Eduardo di Nascimento, appeared in Cleveland Wednesday night with his teammates from Santos, one of the world's best teams. A crowd of 16,000 attended the contest against the Cleveland Stokers of the North American Soccer League, the biggest crowd ever to see a soccer game in Cleveland, but the smallest gathering of the eight-game U.S. tour by Santos.

Pele didn't appear to be worth $800,000. True, this was just an exhibition, and there were times when he handled the soccer ball with his feet like Marquis Haynes of the Harlem Magicians handles a basketball with his hands.

Peter Short of the Stokers did a good job of hounding Pele, much as Bryan (Superpest) Watson of the Detroit Red Wings hounds Hull during a hockey game. The game was rough, and the Brazilian star took more than his share of hard knocks. But I have seen Real Madrid of Spain in an exhibition against a top English team and there were two players that impressed me more.

The fans enjoyed the game throughly, for the outcome if not the display by Pele. For the Stokers beat Santos 2-1, the first loss on the trip for the Brazilians.

To say that the win was tainted, however, would not be misleading. Enrique Mateos of the Stokers got the only first half goal on a penalty kick. Santos tied the score early in the second half, and then, with five minutes to go, the Santos goalie was drawn out and Dietrich Albrecht got behind him to score. The Santos center-half, the key to the defense, was on the sidelines injured at the time and the Stokers had a man advantage.

SANTOS came storming back and kept threatening the Stoker goal. With about 1:10 to play, a shot went in, and it seemed the game would end in a tie. But a linesman ruled offsides, disallowing the goal. (In soccer, there must always be two defenders between an attacker and the goal when the attacker is passed the ball.) There didn't appear to be anyone offside, and the Santos players charged first the linesman and then pinned the referee against the stands.

When a fan tried to protect the referee, the Santos players tried to storm the stands, but a contingent of policemen prevented further trouble. The officials went off under police escort, and as the clock in soccer doesn't stop for arguments, time ran out without play being resumed. In any other country, in a league match, such a situation would have provoked a full-scale riot, but at Cleveland there was merely booing.

The Stoker defense played an outstanding game, especially goalie Paul Shardlow, who made numerous amazing saves, including one on a penalty kick that would have put Santos ahead. The main difference between a polished international side like Santos and a conglomerate U.S. team like the Stokers is the quality of the passing. The internationals use the short passing game, with passes as accurate as in a basketball game. U.S. teams rely more on long boots to clear the ball, without passing it too someone.

So though Santos was clearly the outstanding team, the Stokers came up with a fine effort and undoubtedly helped revive soccer interest in Cleveland.

Howell Blanks Leetonia 3-0

East Liverpool American Legion Post 374 wrapped up the Columbiana County League title with a 3-0 win over Leetonia at the Colt League Field last night.

Jerry Howell tossed a three-hitter for the win. The game was halted by rain after East Liverpool had scored two runs in the top of the sixth (Leetonia was serving as home team.)

The win gives Post 374 the opportunity to play in the District 10 tournament at New Philadelphia July 20-21. The locals will meet Millersburg of Holmes County in the first round. Cadiz and Doylestown of Wayne County and Steubenville and Massillon are other pairings.

Post 374 got its necessary run in the fourth when Bob Bartram walked, Jim Musuraca forced him and stole second, scoring on a double by Dan Cunningham. Gary (Mike) Caruso also doubled for the winners.

Leetonia threatened in the third when Ken DiCross led off with a triple. Howell bore down to strike out Nicotera, but walked Dennis Klembara. Post 374 got out of the winning when Dan Myers at first grabbed a liner by Conrad and doubled Klembara off the bag. Davis was the losing pitcher.

Salem invades the Colt Field tonight and Weirton at 3:30 Sunday.

Cards, Houston Split; Bucs Lose Pair Again

By MIKE BRYSON
Associated Press Sports Writer

A not too funny thing happened to St. Louis' Cardinals when they ran up against the National League's patsies. They were beaten.

And, it took a late rescue effort by Lou Brock and Roger Maris to prevent the rampaging front-runners from being victimized twice by Houston's cellar-dwellers Thursday night.

The Astros, who've had a virtual monopoly on last for a month, used a two-run triple by Denis Menke in the 10th inning to snap the Card' seven-game victory string, 5-4, in the opener of a doubleheader.

They were on the road to repeating that feat, despite a club record six errors, when Maris' single and Brock's double each accounted for a run in the eighth that let St. Louis escape 8-7 in a bizarre nightcap.

However, the loss didn't do much to dim St. Louis' chances of turning the league race into a farce. The Cards' lead was trimmed only half a game—to 9½.

In other senior circuit games, Atlanta nipped Los Angeles 1-0 on Phil Niekro's four-hitter; San Francisco blasted Cincinnati 7-1; Philadelphia extended Pittsburgh's losing streak to six with a doubleheader sweep, 5-0 and 4-1, and New York edged Chicago 1-0, before dropping the nightcap of a doubleheader 2-0.

Nikero baffled Los Angeles with his dazzling knuckleball and a speeded-up delivery.

"I'm putting just a little more pop in my pitches, and it seems to be paying off," said Niekro, who retired the first 13 batters before yielding a fifth-inning single to Jim Lefebvre.

Joe Torre singled home the Braves' lone run in the first.

Hank Aaron was deprived of becoming only the eighth man in baseball history to hit 500 or more homers when left fielder Jim Fairey hauled in one of his long drives at the fence. Aaron needs only one more homer to reach the coveted plateau.

The Giants rode a single, double and homer by Dick Dietz and two run-scoring singles by Ron Hunt in their rout of Cincinnati. Gaylord Perry, 8-6, scattered six hits as San Francisco backed him with an 11-hit attack.

Willie Mays' double in the first inning moved him past Ty Cobb into fourth place on the all-time extra base hit list. It was May's 1,140th extra base hit of his career.

Pittsburgh has played three straight doubleheaders—and lost all three.

The Phils stopped them in the opener on Larry Jackson's six-hitter, then Cookie Rojas' doubled in a run and tallied himself on Tony Gonzalez' single to snap a 1-1 deadlock in the eighth.

Ernie Banks' two-run double in the ninth inning produced Chicago's victory in the nightcap, after New York made Ed Kraepool's fourth-inning RBI single stand up in the opener.

Orioles Beat Senators 10th Straight Time

By HERSCHEL NISSENSON
Associated Press Sports Writer

Washington is in the midst of another aid program—and Baltimore isn't even a foreign country.

Perhaps charity begins at home, but for the Washington Senators it bursts into full bloom in Baltimore, where they helped make Earl Weaver's debut as manager of the Orioles a success Thursday night by losing a 2-0 squeaker.

The Orioles and Senators have met 10 times this season with the same outcome—a Baltimore victory. Since the Birds are only seven games above .500 with a 44-37 record, it's not hard to see why they're in second place in the American League.

Elsewhere, Minnesota edged league-leading Detroit 5-4, Oakland nipped Cleveland 4-3, California ended Boston's eight-game winning streak 3-2 and the New York Yankees beat the Chicago White Sox 5-4.

Baltimore's victory, behind Dave McNally's two-hit pitching moved the Orioles into second place 9½ games behind Detroit and three percentage points ahead of Cleveland.

Rod Carew was the hitting hero as Minnesota snapped a six-game losing streak. He tied the game in the seventh with a two-run single and won it in the ninth, singling home Rich Reese.

Mickey Stanley and Dick McAuliffe homered for Detroit while Cesar Tovar and rookie shortstop Rick Renick connected for the Twins. Renick, just recalled from the Pacific Coast League, became the 36th player in major league history to hit a home run on his first at-bat.

Reggi Jackson's 14th homer with one out in the eighth gave Oakland and Chuck Dobson their triumph over Cleveland. Dobson hurled hitless ball through five innings and the A's took a 3-0 lead in the fourth. But the Indians got one back in the sixth and tied it on Larry Brown's two-run homer in the seventh.

Vic Davalillo's two-run single with the bases loaded and two out climaxed a seventh-inning rally as California ended Boston's winning streak. The Red Sox took a 2-0 lead on an unearned run in the first and Rico Petrocelli's fourth-inning homer.

Andy Kosco started one rally with a double and finished another with a run-scoring single as the Yankees edged the White Sox before a crowd of 40,575 in Milwaukee. It was the fifth of nine American League games the Sox will play in Milwaukee and the largest crowd thus far.

Many turned out to see Mickey Mantle in his first Milwaukee appearance since the 1958 World Series but the Yankee slugger went hitless in five trips.

Lettuce, celery, cantaloupes, cotton and alfalfa are the chief crops of California's Imperial Valley.

Orioles Beat Senators 10th Straight Time

By HERSCHEL NISSENSON
Associated Press Sports Writer

Washington is in the midst of another aid program—and Baltimore isn't even a foreign country.

Perhaps charity begins at home, but for the Washington Senators it bursts into full bloom in Baltimore, where they helped make Earl Weaver's debut as manager of the Orioles a success Thursday night by losing a 2-0 squeaker.

The Orioles and Senators have met 10 times this season with the same outcome—a Baltimore victory. Since the Birds are only seven games above .500 with a 44-37 record, it's not hard to see why they're in second place in the American League.

Elsewhere, Minnesota edged league-leading Detroit 5-4, Oakland nipped Cleveland 4-3, California ended Boston's eight-game winning streak 3-2 and the New York Yankees beat the Chicago White Sox 5-4.

Baltimore's victory, behind Dave McNally's two-hit pitching moved the Orioles into second place 9½ games behind Detroit and three percentage points ahead of Cleveland.

Rod Carew was the hitting hero as Minnesota snapped a six-game losing streak. He tied the game in the seventh with a two-run single and won it in the ninth, singling home Rich Reese.

Mickey Stanley and Dick McAuliffe homered for Detroit while Cesar Tovar and rookie shortstop Rick Renick connected for the Twins. Renick, just recalled from the Pacific Coast League, became the 36th player in major league history to hit a home run on his first at-bat.

Reggi Jackson's 14th homer with one out in the eighth gave Oakland and Chuck Dobson their triumph over Cleveland. Dobson hurled hitless ball through five innings and the A's took a 3-0 lead in the fourth. But the Indians got one back in the sixth and tied it on Larry Brown's two-run homer in the seventh.

Vic Davalillo's two-run single with the bases loaded and two out climaxed a seventh-inning rally as California ended Boston's winning streak. The Red Sox took a 2-0 lead on an unearned run in the first and Rico Petrocelli's fourth-inning homer.

Andy Kosco started one rally with a double and finished another with a run-scoring single as the Yankees edged the White Sox before a crowd of 40,575 in Milwaukee. It was the fifth of nine American League games the Sox will play in Milwaukee and the largest crowd thus far.

Many turned out to see Mickey Mantle in his first Milwaukee appearance since the 1958 World Series but the Yankee slugger went hitless in five trips.

Lettuce, celery, cantaloupes, cotton and alfalfa are the chief crops of California's Imperial Valley.

THE THINKER. Vince Lombardi, general manager of the Green Bay Packers, ponders his problems as Green Bay rookies work out in the background. NFL veterans are barred from training camp because of hassle between players and owners. (UPI Telephoto)

Steeler Rookies Report

LATROBE, Pa. (AP) "Rookies welcomed. Veterans stay away."

This sign didn't appear outside the Pittsburgh Steeler training camp today — but it could have.

Thirty-three Steeler rookies report for the open of drills today, but veterans were to be turned away in the continuing hassle in the National Football League over player pensions.

If nothing else, Steeler coaches will get an extra long look at rookie prospects.

Dan Rooney, Steeler general manager, said any veterans showing up for drills would be turned away as were stars Bart Starr of Green Bay and Roman Gabriel of Los Angeles.

The position of NFL owners is that veterans will be banned from camp until the pension dispute is settled. If necessary they indicate, they'll play the 1968 season with rookies only.

Some 19 Steeler veterans, including six living in the Pittsburgh area, had been scheduled to report to camp today along with the rookies.

Thursday, Steeler veterans issued a statement supporting the players' association in the pension fight, but objecting to its hard-line tactics.

The text of the statement, issued by defensive back Paul Martha, went this way:

"We wholeheartedly support our players' association but are deeply concerned about some of the attitudes expressed as a result of the recent discussions between the association and the owners.

"We think it essential that the opportunity be provided for each player to negotiate his own contract in fact, not just in theory. We also consider it important to the game of professional football and the success of each team, that a congenial atmosphere be maintained between the players and the owners.

"We believe the word 'strike' is an unnecessary addition to the glossary of the pro football fan's guide.

"Accordingly, we urge the players association to conclude negotiations as promptly as possible so that we may begin training for the 1968 season."

A lot of people connected wtih the Steelers said they never thought the dispute would go this far.

"I don't think anybody really thought it would go this far," said offensive halfback Dick Hoak who has played seven years in the NFL. "I still think it will be settled by the time we report to camp."

The bulk of the Steeler veterans are scheduled to report for camp July 19.

Rooney and Art Rooney, club president, also said they didn't think the dispute would last this long, but Art said the owners will not budge.

Both Dan and Art Rooney said they feel the league could operate this year with only rookies, but the veterans don't want to see that happen.

"We want to be ready, and we want to be in shape," said linebacker Andy Russell. "So it's possible that we might start our own camp—at our own expense ... so we can be ready when this is settled. And we all hope that it's resolved."

However, Martha added, "We are not advocating an emergency camp or succession from the players association."

Casper Leads By 4 In British Open Golf

By TOM REEDY
Associated Press Sports Writer

CARNOUSTIE, Scotland (AP) — Want to be the biggest money winner on the American golf circuit?

Eat buffalo, elk and deer meat.

Want to win the British Open Golf Championship?

Eat fish, cold sliced peaches, duck and grapefruit.

What this has to do with golf happens to be Bill Casper, 37, of San Diego, Calif.

He moved into the third round of the British Open this morning, four shots ahead of the field over Carnoustie's murderous 7,252-yard, par-72 links.

Casper, leading money winner in the United States at around $130,000 oozed his way through his first two rounds of 72 and 68 and he confided:

"My nonallergy diet now which took me down from 220 pounds to 185 consists of smoked salmon, whole duck, salad, grapefruit and cold sliced peaches."

Two years ago, Casper was on all game meat to fight an allergy that either made him fat or ill.

After winning that battle, Casper got off the gamemeat.

Behind Casper at 144 were Britain's Tony Jacklin and Brian Barnes, plus Bob Charles of New Zealand.

At 145 were Gary Player, South Africa, Jack Nicklaus, Columbus, Ohio, and Paddy Skerritt of Ireland.

Bracketed at 146 were Dave Thomas of Wales and Maurice Bembridge of England.

Before nightfall, this lot of 70 survivors from an original field of 130 will be reduced to the low 45 and ties for Saturday's 18-hole final.

Nicklaus, the 1966 British Open winner at Murifield, and 4 to 1 favorite here in the pre-tournament betting, has his own diet as well. He's drinking milk by the quart and the way he charged home in Thursday's round gave cause for thought.

The 28-year-old Big Baar spun around in a brilliant 69 which put him in the picture at 145, even though five shots off the pace.

McLendon, Thompson Share Lead

MILWAUKEE, Wis. (AP) — Mac McLendon, who won a PGA tournament the first time he tried, and Rocky Thompson, looking for his first victory after five years of pro golf, shared the lead going into today's second round of the $200,000 Greater Milwaukee Open.

McLendon and Thompson topped a swarm of subpar rounds Thursday with a pair of record 66s over the 6,155-yard par-72 North Shore Country Club course.

The three-year-old course, normally ravaged by stiff winds off nearby Lake Michigan, was more like a duffer's paradise as 40 players broke par and 29 played in regulation strokes.

Van Brocklin Gets Tough

EVANSTON, Ill. (AP) — The College All-Stars opened full scale football workouts at Northwestern University today with Coach Norm Van Brocklin starting off with a get-tough policy.

"We will follow the routine of two workouts a day until we feel we have reached a point of excellence where we can afford to cut down to one a day," Van Brocklin said. "If the players are not in shape, they will pay the price for it.

"We will operate under the assumption that we will play a Green Bay Packer team complete with its veterans."

The collegians are scheduled to meet the Packers, National Football League champions, in the 35th annual All-Star Game Aug. 2, in Soldier Field.

Earl Weaver Starts Well As Manager

BALTIMORE (AP) — Earl Weaver made two line-up changes for his major league managerial debut and announced he would have the Baltimore Orioles "scramble for runs" when necessary.

For one game, at least, the 37-year-old replacement for deposed Hank Bauer looked like a wizard in knicker pants.

—Don Buford, playing his second game as a major league center fielder, walked and scored a run in the first inning and homered in the fifth as Baltimore edged Washington 2-0 Thursday night with Dave McNally hurling a two-hitter.

—Mark Belanger, moved from eighth to second in the batting order, singled Buford to third base in the opening frame, and the run scored on a double play grounder.

—The scrambling had to be seen to be believed. Boog Powell, who scrambles like a rhinoceros, stole second base in the first inning. It was Powell's sixth stolen base in 892 games.

Frank Robinson, a proficient base stealer but more noted for his slugging, also stole a base, ending with a head-first slide.

"The two runs were scrambled for, didn't score," said Weaver, noting that Powell and Robinson were left stranded on second.

Weaver, who managed Oriole farm teams for 11 seasons, remembered he once wrote a scouting report which said Buford could play in the big leagues as a center fielder. Chicago later shifted him to the infield.

Means, Evans Lead Win By E. Liverpool

LISBON — The pitching of Jack Evans and the hitting of Craig Means led the East Liverpool Merchants to their 5th straight win in the County Softball League, a 5-1 whipping of Wellsville Appliance at Pine Tree Inn Field last night.

Means clouted two home runs and Evans pitched four hitless innings of relief, fanning 11. Only one ball was hit against the righthander, a pop-up. He allowed several walks and hit batsmen, however. Roger Ours accounted for Wellsville's only run with a homer off starter Bill Talbot. Joe Anderson added a double and single for East Liverpool. Jerry Cannon was the loser.

The win was revenge for a 13-12 win by Wellsville the last time the two teams met, the last loss for East Liverpool. The Merchants, 11-3, collide with unbeaten Toot Trucking Monday night at 7:15.

In the nightcap last night, the Wellsville Merchants downed the Lisbon Merchants 7-3, Gary Medley was the winner and Jerry Bush the loser. Ron Tuttle homered for Wellsville.

Colt Stars Win, Tie In Illinois

The touring East Liverpool Colt League all-stars played two more games in Illinois yesterday, winning one and tying the other.

East Liverpool and Rockford tied 6-6, with the game called by curfew. East Liverpool outhit the home team 8-3, but made five errors. Mike Smith had a double and single and Kim Kemple two hits.

Traveling to Belvidere, East Liverpool won 4-1, despite getting only one hit, by Don Smith. Belvidere made four errors and got only two hits off winner Jim Moore and reliever Randy McVay.

East Liverpool will play the same two teams tomorrow, with Greg Brophy and Kemple slated to pitch.

ROCKY COLAVITO

Colavito Released By Dodgers

By KEN RAPPOPORT

TEMPLE, Pa. (AP) — Will Rocky Colavito, one of baseball's great home run hitters, call it a career at age 35? Don't bother to ask.

"I feel I can play ball every day," Colavito said Thursday after learning the Los Angeles Dodgers had given him his unconditional release.

The Rock, a handsome, dark-haired outfielder who slammed most of his lifetime 369 home runs with the Cleveland Indians, was used primarily as a pinch hitter this year with the Dodgers.

"I saw the handwriting on the wall," he said, "when I got to bat only three times in four weeks. I assumed the Dodgers would sell me or release me.

"But I feel I can still play."

Colavito, in his 13th major league season, had a record of 23 hits in 113 at-bats this year for the Dodgers. His three homers in 1968 put him into a tie with Ralph Kiner for 16th place on the all-time list of home run hitters.

He last appeared in a Dodger uniform June 19 and was given permission to return to his home in this small southeastern Pennsylvania community when his wife got sick.

Colavito, a fine fielder with an accurate arm, said he will miss Los Angeles, although Dodger Stadium is no hitter's paradise.

"The weather's consistent," he said, "and the fans are real good fans. I enjoyed it, it's a good town."

Colavito, one of only nine players in baseball history to hit four homers in a game, came up with Cleveland in 1955.

He tied for the American League home run lead in 1955 with Harmon Killebrew.

THE THINKER. Vince Lombardi, general manager of the Green Bay Packers, ponders his problems as Green Bay rookies work out in the background. NFL veterans are barred from training camp because of hassle between players and owners. (UPI Telephoto)

Steeler Rookies Report

LATROBE, Pa. (AP) "Rookies welcomed. Veterans stay away."

This sign didn't appear outside the Pittsburgh Steeler training camp today — but it could have.

Thirty-three Steeler rookies report for the open of drills today, but veterans were to be turned away in the continuing hassle in the National Football League over player pensions.

If nothing else, Steeler coaches will get an extra long look at rookie prospects.

Dan Rooney, Steeler general manager, said any veterans showing up for drills would be turned away as were stars Bart Starr of Green Bay and Roman Gabriel of Los Angeles.

The position of NFL owners is that veterans will be banned from camp until the pension dispute is settled. If necessary they indicate, they'll play the 1968 season with rookies only.

Some 19 Steeler veterans, including six living in the Pittsburgh area, had been scheduled to report to camp today along with the rookies.

Thursday, Steeler veterans issued a statement supporting the players' association in the pension fight, but objecting to its hard-line tactics.

The text of the statement, issued by defensive back Paul Martha, went this way:

"We wholeheartedly support our players' association but are deeply concerned about some of the attitudes expressed as a result of the recent discussions between the association and the owners.

"We think it essential that the opportunity be provided for each player to negotiate his own contract in fact, not just in theory. We also consider it important to the game of professional football and the success of each team, that a congenial atmosphere be maintained between the players and the owners.

"We believe the word 'strike' is an unnecessary addition to the glossary of the pro football fan's guide.

"Accordingly, we urge the players association to conclude negotiations as promptly as possible so that we may begin training for the 1968 season."

A lot of people connected wtih the Steelers said they never thought the dispute would go this far.

"I don't think anybody really thought it would go this far," said offensive halfback Dick Hoak who has played seven years in the NFL. "I still think it will be settled by the time we report to camp."

The bulk of the Steeler veterans are scheduled to report for camp July 19.

Rooney and Art Rooney, club president, also said they didn't think the dispute would last this long, but Art said the owners will not budge.

Both Dan and Art Rooney said they feel the league could operate this year with only rookies, but the veterans don't want to see that happen.

"We want to be ready, and we want to be in shape," said linebacker Andy Russell. "So it's possible that we might start our own camp—at our own expense ... so we can be ready when this is settled. And we all hope that it's resolved."

However, Martha added, "We are not advocating an emergency camp or succession from the players association."

Casper Leads By 4 In British Open Golf

By TOM REEDY
Associated Press Sports Writer

CARNOUSTIE, Scotland (AP) — Want to be the biggest money winner on the American golf circuit?

Eat buffalo, elk and deer meat.

Want to win the British Open Golf Championship?

Eat fish, cold sliced peaches, duck and grapefruit.

What this has to do with golf happens to be Bill Casper, 37, of San Diego, Calif.

He moved into the third round of the British Open this morning, four shots ahead of the field over Carnoustie's murderous 7,252-yard, par-72 links.

Casper, leading money winner in the United States at around $130,000 oozed his way through his first two rounds of 72 and 68 and he confided:

"My nonallergy diet now which took me down from 220 pounds to 185 consists of smoked salmon, whole duck, salad, grapefruit and cold sliced peaches."

Two years ago, Casper was on all game meat to fight an allergy that either made him fat or ill.

After winning that battle, Casper got off the gamemeat.

Behind Casper at 144 were Britain's Tony Jacklin and Brian Barnes, plus Bob Charles of New Zealand.

At 145 were Gary Player, South Africa, Jack Nicklaus, Columbus, Ohio, and Paddy Skerritt of Ireland.

Bracketed at 146 were Dave Thomas of Wales and Maurice Bembridge of England.

Before nightfall, this lot of 70 survivors from an original field of 130 will be reduced to the low 45 and ties for Saturday's 18-hole final.

Nicklaus, the 1966 British Open winner at Murifield, and 4 to 1 favorite here in the pre-tournament betting, has his own diet as well. He's drinking milk by the quart and the way he charged home in Thursday's round gave cause for thought.

The 28-year-old Big Baar spun around in a brilliant 69 which put him in the picture at 145, even though five shots off the pace.

McLendon, Thompson Share Lead

MILWAUKEE, Wis. (AP) — Mac McLendon, who won a PGA tournament the first time he tried, and Rocky Thompson, looking for his first victory after five years of pro golf, shared the lead going into today's second round of the $200,000 Greater Milwaukee Open.

McLendon and Thompson topped a swarm of subpar rounds Thursday with a pair of record 66s over the 6,155-yard par-72 North Shore Country Club course.

The three-year-old course, normally ravaged by stiff winds off nearby Lake Michigan, was more like a duffer's paradise as 40 players broke par and 29 played in regulation strokes.

Van Brocklin Gets Tough

EVANSTON, Ill. (AP) — The College All-Stars opened full scale football workouts at Northwestern University today with Coach Norm Van Brocklin starting off with a get-tough policy.

"We will follow the routine of two workouts a day until we feel we have reached a point of excellence where we can afford to cut down to one a day," Van Brocklin said. "If the players are not in shape, they will pay the price for it.

"We will operate under the assumption that we will play a Green Bay Packer team complete with its veterans."

The collegians are scheduled to meet the Packers, National Football League champions, in the 35th annual All-Star Game Aug. 2, in Soldier Field.

Earl Weaver Starts Well As Manager

BALTIMORE (AP) — Earl Weaver made two line-up changes for his major league managerial debut and announced he would have the Baltimore Orioles "scramble for runs" when necessary.

For one game, at least, the 37-year-old replacement for deposed Hank Bauer looked like a wizard in knicker pants.

—Don Buford, playing his second game as a major league center fielder, walked and scored a run in the first inning and homered in the fifth as Baltimore edged Washington 2-0 Thursday night with Dave McNally hurling a two-hitter.

—Mark Belanger, moved from eighth to second in the batting order, singled Buford to third base in the opening frame, and the run scored on a double play grounder.

—The scrambling had to be seen to be believed. Boog Powell, who scrambles like a rhinoceros, stole second base in the first inning. It was Powell's sixth stolen base in 892 games.

Frank Robinson, a proficient base stealer but more noted for his slugging, also stole a base, ending with a head-first slide.

"The two runs were scrambled for, didn't score," said Weaver, noting that Powell and Robinson were left stranded on second.

Weaver, who managed Oriole farm teams for 11 seasons, remembered he once wrote a scouting report which said Buford could play in the big leagues as a center fielder. Chicago later shifted him to the infield.

Means, Evans Lead Win By E. Liverpool

LISBON — The pitching of Jack Evans and the hitting of Craig Means led the East Liverpool Merchants to their 5th straight win in the County Softball League, a 5-1 whipping of Wellsville Appliance at Pine Tree Inn Field last night.

Means clouted two home runs and Evans pitched four hitless innings of relief, fanning 11. Only one ball was hit against the righthander, a pop-up. He allowed several walks and hit batsmen, however. Roger Ours accounted for Wellsville's only run with a homer off starter Bill Talbot. Joe Anderson added a double and single for East Liverpool. Jerry Cannon was the loser.

The win was revenge for a 13-12 win by Wellsville the last time the two teams met, the last loss for East Liverpool. The Merchants, 11-3, collide with unbeaten Toot Trucking Monday night at 7:15.

Colt Stars Win, Tie In Illinois

The touring East Liverpool Colt League all-stars played two more games in Illinois yesterday, winning one and tying the other.

East Liverpool and Rockford tied 6-6, with the game called by curfew. East Liverpool outhit the home team 8-3, but made five errors. Mike Smith had a double and single and Kim Kemple two hits.

Traveling to Belvidere, East Liverpool won 4-1, despite getting only one hit, by Don Smith. Belvidere made four errors and got only two hits off winner Jim Moore and reliever Randy McVay.

East Liverpool will play the same two teams tomorrow, with Greg Brophy and Kemple slated to pitch.

Wilt Signs

LOS ANGELES (AP) — Wilt Chamberlain is officially and happily in the fold and on the payroll of the Los Angeles Lakers today—and the payroll undoubtedly ballooned considerably.

How much neither Chamberlain nor the Lakers' owner, Jack Kent Cooke, will say.

"Wilt Chamberlain has signed a five-year contract with the Lakers," Cooke announced at a news conference at his Forum Thursday, and facetiously, he added, "I understand he is willing to renew my contract with California Sports, Inc."

HANOVER	201 000 x	—3 5 1

In junior division games Wednesday night, Lawrenceville nipped Hookstown 19-18 despite three home runs, including a grand slam, by Keith Waxler of Hookstown; and Shippingport downed Hanover 10-5.

Model trains usually are made from the blueprints of actual trains. A model of the Pennsylvania Railroad's S-2 steam turbine locomotive beat the real thing to the tracks.

ROCKY COLAVITO

Colavito Released By Dodgers

By KEN RAPPOPORT

TEMPLE, Pa. (AP) — Will Rocky Colavito, one of baseball's great home run hitters, call it a career at age 35? Don't bother to ask.

"I feel I can play ball every day," Colavito said Thursday after learning the Los Angeles Dodgers had given him his unconditional release.

The Rock, a handsome, dark-haired outfielder who slammed most of his lifetime 369 home runs with the Cleveland Indians, was used primarily as a pinch hitter this year with the Dodgers.

"I saw the handwriting on the wall," he said, "when I got to bat only three times in four weeks. I assumed the Dodgers would sell me or release me.

"But I feel I can still play."

Colavito, in his 13th major league season, had a record of 23 hits in 113 at-bats this year for the Dodgers. His three homers in 1968 put him into a tie with Ralph Kiner for 16th place on the all-time list of home run hitters.

He last appeared in a Dodger uniform June 19 and was given permission to return to his home in this small southeastern Pennsylvania community when his wife got sick.

Colavito, a fine fielder with an accurate arm, said he will miss Los Angeles, although Dodger Stadium is no hitter's paradise.

"The weather's consistent," he said, "and the fans are real good fans. I enjoyed it, it's a good town."

Colavito, one of only nine players in baseball history to hit four homers in a game, came up with Cleveland in 1955.

He tied for the American League home run lead in 1955 with Harmon Killebrew.

Junior Editors Quiz on VOYAGE OF COLUMBUS

QUESTION: *When Columbus sailed around the world, were there other important men along?*

* * * *

ANSWER: Columbus did NOT sail around the world; he discovered the West Indian Islands of the New World in 1492. Thinking these were the long-sought islands of the East, he sailed back in triumph to Spain. The commander-in-chief of the expedition which first sailed around the world was Ferdinand Magellan, a Portuguese who sailed from Spain in 1519 (see picture and map). Magellan's plan was to reach the Spice Islands of the East, load his ships with spices and sail home the way he came. After much difficulty, he sailed around Cape Horn and across the Pacific. Arriving at the island of Cebu in the Philippines, a dispute with natives arose which cost Magellan his life. All but one of the original five ships had been wrecked or burnt, but the commander of the last ship, Sebastian Del Cano, kept on sailing west and eventually reached Spain. Since Del Cano was actually the first to circumnavigate the globe, he is extremely important in world history. Yet, since Magellan initiated the voyage, he receives most of the credit for its success. It was a great achievement, for it definitely proved that the earth was round.

(Billy Jo Stangl of Highland, Ill., wins a prize for this question. You can win $10 cash plus AP's handsome World Yearbook if your question, mailed on a postcard to Junior Editors in care of this newspaper, is selected for a prize.)

11-Foot Boa Travels 25 Miles To School

SAN DIEGO, Calif. (AP) — An 11-foot-long boa constrictor that disappeared two weeks ago from the Cripps Institution of Oceanography turned up 25 miles away—at Grossmont High School.

A groundskeeper found the snake Thursday curled under a bush near the science building. Somebody must have removed it from a Scripps laboratory, police say.

Southernmost point of the United States is Kalae (South Cape) on Hawaii Island, Hawaii.

A Quiet Researcher

New Food And Drug Head Has Varied Background

By JACK MILLER
Associated Press Writer

WASHINGTON (AP) — The new chief of the Food and Drug Administration is a quiet, pipe-smoking research physician who promises to follow the policies, but not the spectacular style, of his predecessor, Dr. James L. Goddard.

"I'm just not the aggressive, flamboyant type that he was," said Dr. Herbert L. Ley Jr.

The new commissioner showed in an interview, however, a frankness that might have rivaled Goddard when he said:

"I could not do what that man did in modifying the image of this agency . . . I'm much more deliberate, less impetuous. But I think I am equally committed to the goals of the administration. I have very much the same philosophy about consumer protection."

Goddard, who resigned effective July 1, gave the agency the image of a determined regulator of the drug industry. He often hit the headlines with spectacular statements about such things as marijuana.

Ley said he doesn't expect to avoid controversy. "In this sort of job, you expect to have criticism from all sides."

But he's known mainly as an efficient administrator and considers himself "an administrator first and a physician second."

Sitting in his unprententious office in Arlington, across the Potomac from Washington, Ley fidgeted with his pipe and peered over his dark horn-rimmed glasses as he talked.

He has red, curly hair; stands six-feet, and keeps his weight at a trim 174 by riding a bike evenings.

At 45, the same age as Goddard, he has come up fast.

From an intense interest in electronics developed as a youngster in Ashland, Ky., he went to Harvard to study physics after starting at Ashland Junior College.

He was a top student, and thinks he would have been sent along with many of his colleagues to Los Alamos, N.M., to help develop the atomic bomb during World War II. But, wanting more human contact, he switched to medicine.

He became a career officer in the Army Medical Corps after the war and also a research specialist. He left the service in 1958 after 11 years with the rank of lieutenant colonel.

He then served as a professor and department chairman at George Washington University in Washington, D.C. and at the Harvard School of Public Health.

Goddard, whom he has known for 13 years, persuaded him in 1966 to join the FDA.

From his Army experience, Ley came to believe in the team approach to a task. And as chief of FDA's Bureau of Medicine, according to his colleagues, he created out of disarray an efficient team operation.

He also brought to the agency his extensive contacts in the academic and medical communities. And he plans to make far greater use of advisory committees drawn from outside experts.

His main job, as he sees it, will be to continue the agency's vigorous pursuit of protection for the consumer.

County Take On Tax Listed

A total of $1,870,670 from motor vehicle registration revenues and fuel taxes was allocated to Columbiana County for the 1967 fiscal year, the Ohio Department of Taxation reports.

A breakdown of the $1,167,468 total from motor vehicle registration revenues follows: The county received 47 per cent determined by the place of residence of the vehicle owner, 9 percent based on a ratio of total miles of county roads to the total miles of county roads in the state and 5 per cent which was distributed equally among the counties.

Thirty-four per cent was allocated to the county or municipality according to the place of vehicle registration — $850,622 for the county and $210,136 for the municipalities.

The remaining 5 per cent from this source was distributed to townships based on a ratio of total miles of township roads in a township to the total miles of township roads in the state. Columbiana County townships thus received $106,710.

The county received a total of $703,202 from motor vehicle fuel taxes. These funds were derived from two sources: a 2-cent tax marked for the gasoline excise tax fund and a 2-cent tax credited to the highway construction fund.

The townships received a total of $180,000 based on 17½ per cent of the highway construction fund distributed equally among the townships.

Municipalities received a total of $233,202, which represents the distribution of 30 per cent of the gasoline excise tax fund meted out on a ratio of the total number of motor vehicle registrations in each municipality to the total number of motor vehicle registrations within all the municipalities of the state. Also included in this total was 7½ per cent from the highway construction fund, distribution of which is determined by the same formula.

The remaining $290,000 goes to the county. This represents 25 per cent of the gasoline excise tax fund and 7½ per cent of the highway construction fund distributed equally among the counties.

The ruins of England's Glastonbury Abbey are of great interest because King Arthur and Queen Guinevere are said to have been buried there.

When Sir Isaac Newton reacted to criticism of his scientific theories, his friends had to plead with him to publish his most valuable discoveries.

Patrol Lists Two Mishaps

Two women received minor injuries in traffic mishaps on area highways Thursday, officers of the Ohio Highway Patrol at Lisbon report.

Elzie C. Harsha, 74, of RD 2, suffered abrasions of the knees during a fall while attempting to halt her runaway car.

The Harsha woman told patrolmen she had parked her car along County Rd. 430 near Carroll's Market at 2 p. m. She said she saw it drifting backward across the road toward the north berm and ran out in an attempt to stop it.

She slipped and fell as the car continued over the embankment, where it halted a few feet below.

The car received minor damage, officers said.

A Youngstown woman was taken to City Hospital following a mishap on Route 30 near Calcutta at 5:30 p. m.

Gail A. Bord, 29, was examined there following the accident, which took place about three - tenths of a mile west of Route 170.

The Bord woman told officers her 1963 coach was eastbound on Route 30 when she suddenly became ill and the car veered off the south side of the road.

The coach continued along the guardrail for a few feet, then crashed into a tree, she added. The coach was damaged moderately, patrolmen said.

2 Prisoners Escape

JEFFERSON, Ohio (AP) — Two prisoners broke out of the Ashtabula County Jail Thursday night after slugging Deputy Lloyd Lafferty, who was on duty alone.

The prisoners — 25-year-old Nicky Weatherman and 19-year-old Kenneth Nogel, both of Ashtabula, fled through a back door after knocking Lafferty unconscious, deputies reported.

A Quiet Researcher

New Food And Drug Head Has Varied Background

By JACK MILLER
Associated Press Writer

WASHINGTON (AP) — The new chief of the Food and Drug Administration is a quiet, pipe-smoking research physician who promises to follow the policies, but not the spectacular style, of his predecessor, Dr. James L. Goddard.

"I'm just not the aggressive, flamboyant type that he was," said Dr. Herbert L. Ley Jr.

The new commissioner showed in an interview, however, a frankness that might have rivaled Goddard when he said:

"I could not do what that man did in modifying the image of this agency . . . I'm much more deliberate, less impetuous. But I think I am equally committed to the goals of the administration. I have very much the same philosophy about consumer protection."

Goddard, who resigned effective July 1, gave the agency the image of a determined regulator of the drug industry. He often hit the headlines with spectacular statements about such things as marijuana.

Ley said he doesn't expect to avoid controversy. "In this sort of job, you expect to have criticism from all sides."

But he's known mainly as an efficient administrator and considers himself "an administrator first and a physician second."

Sitting in his unprententious office in Arlington, across the Potomac from Washington, Ley fidgeted with his pipe and peered over his dark horn-rimmed glasses as he talked.

He has red, curly hair; stands six-feet, and keeps his weight at a trim 174 by riding a bike evenings.

At 45, the same age as Goddard, he has come up fast.

From an intense interest in electronics developed as a youngster in Ashland, Ky., he went to Harvard to study physics after starting at Ashland Junior College.

He was a top student, and thinks he would have been sent along with many of his colleagues to Los Alamos, N.M., to help develop the atomic bomb during World War II. But, wanting more human contact, he switched to medicine.

He became a career officer in the Army Medical Corps after the war and also a research specialist. He left the service in 1958 after 11 years with the rank of lieutenant colonel.

He then served as a professor and department chairman at George Washington University in Washington, D.C. and at the Harvard School of Public Health.

Goddard, whom he has known for 13 years, persuaded him in 1966 to join the FDA.

From his Army experience, Ley came to believe in the team approach to a task. And as chief of FDA's Bureau of Medicine, according to his colleagues, he created out of disarray an efficient team operation.

He also brought to the agency his extensive contacts in the academic and medical communities. And he plans to make far greater use of advisory committees drawn from outside experts.

His main job, as he sees it, will be to continue the agency's vigorous pursuit of protection for the consumer.

County Take On Tax Listed

A total of $1,870,670 from motor vehicle registration revenues and fuel taxes was allocated to Columbiana County for the 1967 fiscal year, the Ohio Department of Taxation reports.

A breakdown of the $1,167,468 total from motor vehicle registration revenues follows: The county received 47 per cent determined by the place of residence of the vehicle owner, 9 percent based on a ratio of total miles of county roads to the total miles of county roads in the state and 5 per cent which was distributed equally among the counties.

Thirty-four per cent was allocated to the county or municipality according to the place of vehicle registration — $850,622 for the county and $210,136 for the municipalities.

The remaining 5 per cent from this source was distributed to townships based on a ratio of total miles of township roads in a township to the total miles of township roads in the state. Columbiana County townships thus received $106,710.

The county received a total of $703,202 from motor vehicle fuel taxes. These funds were derived from two sources: a 2-cent tax marked for the gasoline excise tax fund and a 2-cent tax credited to the highway construction fund.

The townships received a total of $180,000 based on 17½ per cent of the highway construction fund distributed equally among the townships.

Municipalities received a total of $233,202, which represents the distribution of 30 per cent of the gasoline excise tax fund meted out on a ratio of the total number of motor vehicle registrations in each municipality to the total number of motor vehicle registrations within all the municipalities of the state. Also included in this total was 7½ per cent from the highway construction fund, distribution of which is determined by the same formula.

The remaining $290,000 goes to the county. This represents 25 per cent of the gasoline excise tax fund and 7½ per cent of the highway construction fund distributed equally among the counties.

Patrol Lists Two Mishaps

Two women received minor injuries in traffic mishaps on area highways Thursday, officers of the Ohio Highway Patrol at Lisbon report.

Elzie C. Harsha, 74, of RD 2, suffered abrasions of the knees during a fall while attempting to halt her runaway car.

The Harsha woman told patrolmen she had parked her car along County Rd. 430 near Carroll's Market at 2 p. m. She said she saw it drifting backward across the road toward the north berm and ran out in an attempt to stop it.

She slipped and fell as the car continued over the embankment, where it halted a few feet below.

The car received minor damage, officers said.

A Youngstown woman was taken to City Hospital following a mishap on Route 30 near Calcutta at 5:30 p. m.

Gail A. Bord, 29, was examined there following the accident, which took place about three - tenths of a mile west of Route 170.

The Bord woman told officers her 1963 coach was eastbound on Route 30 when she suddenly became ill and the car veered off the south side of the road.

The coach continued along the guardrail for a few feet, then crashed into a tree, she added. The coach was damaged moderately, patrolmen said.
